

MICHIGAN FITNESS CLUB ASSOCIATION

◆ Mission Statement

The Michigan Fitness Club Association is a non-partisan association representing the health and fitness industry. MFCA is dedicated to promoting and protecting the economic and political interests of gyms, fitness studios, and exercise-related businesses throughout Michigan. Our goal is to provide a medium through which persons engaged in the health and fitness industry may advocate for and advance common business interests, to bolster the common business interests of the Association's members through the promotion of the health and fitness industry, to foster conditions favorable to the development and expansion of health and fitness clubs, and to support initiatives leading to greater health. The association will establish relationships with, educate, and financially support those individuals running for office from both major political parties that believe in a legislative agenda that helps to improve the health and fitness industry for consumers and operators.

The association is a non-profit organized for the purposes set forth in Section 501(c)(6) of the Internal Revenue Code of 1986. The association is made up of owners, operators and service providers in the health and fitness industry. For more information, contact our website at www.MFCFIT.org.
