Mortgage Solutions for You and How I can help

Whether you're a first-time homebuyer, or you own a home and are thinking about moving, buying a new home is a major decision. From personal to financial to market considerations, you'll need to weigh a lot of factors and information along the way.

Bringing you expert, independent advice

As a mortgage broker, I'm here to help you make the choices that suit you best. I simplify the process of finding the right mortgage for you by tracking down the best mortgage rates, terms, and options - saving you time and money. Through my professional network, I have access to numerous lenders, but remember, as a mortgage broker, I work for you, not the lenders. And because I'm independent, my advice is truly unbiased. Best of all, my service is absolutely free to you, the homebuyer.

An accredited professional

Now that you know what a broker can do for you, let me tell you a bit more about myself. I'm an Accredited Mortgage Professional (AMP), which is the national designation for the Canadian mortgage industry (and your assurance that I provide the highest standard of proficiency and ethics). I'm also a member of Mortgage Professionals Canada (formerly CAAMP) and am licensed by FSCO, The Financial Services Commission of Ontario.

In today's rapidly changing economy and real estate market, it's crucial to keep up-to-date with industry standards and best practices. As part of my commitment to providing the absolute best customer experience, I am constantly updating my education to stay ahead of the changing marketplace.

Customer Service Excellence

On a personal note, I've been in the mortgage industry for over 15 years and have helped thousands of people achieve their home ownership dreams. My services don't end when your deal closes. I keep in touch, so you are up to date on market trends. My customers call me often for advice on refinancing, renewing, investing, and sometimes just to talk about rates. I am available 7 days a week.
