Mission Statement: Where We Stand

- We want to save the Key deer from extinction. Education and habitat protection are our primary long-term goals.
- We believe that presentation of factual information will foster positive attitudes toward current and future protective measures for the deer.
- Recognizing that the historical range of the deer encompasses much privately owned property, the Alliance supports land acquisition on a “willing seller, vacant land” basis. Primary habitat **MUST** be protected; the species cannot survive if its range is limited only to those lands within the present National Key Deer Refuge.
- Short-term goals of the K.D.P.A. relate to reducing the number of deaths resulting from human-deer interaction (automobiles, illegal feeding, free-roaming dogs, etc.) and enhancing the current habitat.
- The K.D.P.A. regards the Key deer as a national natural treasure to be protected as a legacy for future generations.

Yes! I support the mission of the Key Deer Protection Alliance.
