

# THE FIRST TIME THAT I MET YOU

*Red Peters with The Windbreakers and the Delicious Dips*

I wandered through this crazy town, my head up in a cloud  
Looking for a place to do my biz  
I zipped my fly and saw that I'd attracted quite a crowd  
but your face it was the one I couldn't miss

The first time that I saw you baby  
I thought I stepped in shit  
At least that's what it felt like baby  
the more I think of it.  
Now I stand here unafraid  
I wanna get laid (he wants to get laid)  
I wanna get laid

we talked all nite and got to know each other inside out  
you taught me what it means to be a girl  
and should I find it hard again I won't sit here and pout  
we'll take a little trip around the world

The first time that you met me baby  
you thought that I was such a pig

but that's what I love about you baby  
You really do the things I dig  
and I'm so glad that you stayed  
now I wanna get laid

I wanna get laid in the sunshine  
I wanna get laid in the moonlight baby  
I'd rather get blown but I'll settle for a handy  
as long as it's your hand and not my own

The first time that we held each other  
I thought I'd lose my place  
you guided me inside your mind, love

and then onto your face  
The greatest love the world has ever known  
I wanna get blown (he wants to get blown)  
I wanna get blown  
and then I wanna get laid
