

ROCKET IN MY PANTS

Red Peters with the Joy Kingoff Singers

I took the shuttle to your pad last nite
my Venus rising as you held it so right
you had me in a trance
I got a rocket in my pants over you

Alpha Centuri wasn't far from the scene
Aurora Borealis, I don't know what that means
cuz when you said let's dance
I got a rocket in my pants over you.

BRIDGE

Two hearts traveling on vacation
one fine Sunday afternoon
my pod enters your space station
my capsule was upright
so I parked it overnite

And so two space ships that pass high in the sky
have docked successfully the very first try
an astronomical romance
I got a rocket in my pants over you.

instrumental

my pod enters your space station
my Sputnik fit so tight
I launched a satellite

And so two space ships that pass in the sky
have docked successfully the very first try
an astronomical romance
I got a rocket in my pants over you.

an astronomical romance (*where the fuck is France?*)
an astronomical romance
I got a rocket in my pants over you.
