

The Safeguard

Aluminium bifold door

Discover Star Quality

SAFEGUARD

Safeguard bifold doors

Safeguard bifold doors are manufactured from the award winning Stellar aluminium profile which is designed and produced by the Epwin Group, the UKs largest system house.

Designed and manufactured in Britain, Safeguard provides the best aluminium window and door products for today's discerning homeowners.

Everywhere you look there are innovative features and intelligent design protocols that ensure that your stunning new bifold door will look good as well as keeping you warm and secure for years to come.

Quite simply Safeguard is the future of aluminium windows and doors.

Stunning good looks

Safeguard bifold doors have been designed by experts from the ground up, this has ensured that every component and function has been carefully considered culminating in an award winning product that will make you the envy of your neighbours now and for years to come.

Our new bifold door has allowed us to flood our home with light, it has been life changing for the family.

Maggie Jones

Our new door opens straight onto the decking and has provided us with a gorgeous open space for when we are entertaining.

Dave O` Neil

I was so impressed with the difference it made to the back of my house, I have recommended them to all my friends.

Emily Downing

The Safeguard **bifold door difference**

A bifold door is a stunning style statement that connects the indoors and outdoors in an extraordinary way.

When you choose the Safeguard Aluminium bifold door, you take the effortless elegance of a bifold door to the next level.

Safeguard has all the strength a bifold needs and packs a real punch with its slim sashes and contemporary square look. Full-length polyamide thermal breaks ensure this beautiful door is also highly insulating.

Bifold doors need exceptional hardware, and Safeguard components approve 10,000 cycle test to ensure reliable operation even at the largest sash sizes/weights.

Super tough polyester powder coating resists damage from scuffs and day to day knocks.

Paint finish guarantee

The Safeguard Aluminium bifold door comes with a 10-year guarantee that covers the coated aluminium against:

- ⊕ peeling, powdering and blistering
- ⊕ corrosion, except due to bending or folding after the application of the paint
- ⊕ chalking, fading and loss of sheen
- ⊕ filiform corrosion

Accessory perfection

Door Furniture

There is no point in having a fantastic performing door without some stunning hardware to finish it off, that is why our handles come in a range of colours designed to accentuate your new doors perfectly.

Your choice of handle colours - Black, white and chrome.

Black Rollers and hinges fitted as standard

Opening Options

The Safeguard Aluminium bifold door has a range of options including, left, right and both side stacking. There is also the option to have a French door-style arrangement within the bifold, with two opening leaves, each with a handle. It's a sophisticated alternative to the single master opening leaf that's traditional for bifolding doors.

Thresholds

Our threshold has been designed to be unobtrusive and yet robust enough to ensure weather proofing integrity is maintained. Designed specifically to work in tandem with our stainless steel rollers, correctly maintained, our doors will glide open and shut seamlessly. A low threshold option is available for internal usage.

Protecting the home

Security

Security is an integral part of every Safeguard Aluminium bifold door. As a material, aluminium offers exceptionally high strength and dimensional stability.

For added peace of mind, the Yale multi point lock, one of the most trusted names in home security is fitted to every Safeguard bifold door.

These, combined with an incredibly robust hinge and shootbolt set up, resulted in the Safeguard door passing the rigorous PAS24 2016 test for enhanced security and can now be easily upgraded to the police approved “Secured by Design” accreditation.

Secured by Design

A truly British heritage

Safeguard bifold doors are manufactured from profiles produced by Epwin Window Systems.

Our products are designed and manufactured in Great Britain by a team of experts with over 500 years' industry experience between them. The Epwin policy of continuous investment in our staff, products and service has led to multiple awards and the enviable position of no1 (by volume) in the industry.

The Stellar bifold door system has been many years in design, this has enabled us to witness the product flaws and associated issues that were prevalent in our competitors earlier models and it has been this Knowledge (along with a good understanding of what homeowners want), which has enabled our designers to produce, what we think is the ultimate in cutting edge, robust and visually stunning bifold door design.
