

DAY OF ACTION GOALS

January 14, 2026
Tivoli Fountain &
Capitol Steps

1

INFORM & EDUCATE

Educate the public and lawmakers on how child welfare laws are failing to keep kids safe. A 200%+ increase in fatalities and near fatalities is a clear systematic failure.

2

HUMANIZE THE CRISIS

Display visuals that communicate the severity of the crisis we are facing. Show these are more than mere statistics - these are real children whose suffering and death was preventable.

3

OFFER PRACTICAL SOLUTIONS

Provide lawmakers with specific feedback on what aspects of the current laws are causing the most harm and provide recommendations on what changes need to be made.

4

MOTIVATE CHANGE

Show legislators that improving child welfare laws are a priority to constituents across the state. Communicate with urgency the need to make improvements this legislative session.

5

BUILD & STRENGTHEN NETWORKS

Connect people from different geographic regions and backgrounds to make meaningful change both systematically and within their communities.

KEEPING KIDS SAFE
