Chief,

What would be really nice for not only myself, but Dispatch, is if we can get a tracker in both EMS 2 + 3. Also, if being greedy, remind Officers to sign in/out with Dispatch if staying after shift. Most are doing exceptional, just here and there some forgets.

THANK YOU!

What would be really nice is if we had the option of comp time. It's been hard trying to bank sick time after having to use it all after maternity leave. Unfortunately, when ever my child is sick, JD or I have to call out as we have no family available to help us.

Thanks Chief!

NOISE = negative comments in the print media and at public meetings directed at you and the agency = not good for you or the agency. SOLUTION: replace "bad noise" with "good noise".

The work product that this agency does is unparalleled. The public is well served in all areas of public service. Community outreach SRO program, all areas of policing etc. we enjoy a great public image in our community.

If we work on improving our image within the Law Enforcement Community, this would go FAR!!! - Recruiting and retaining would greatly improve.

Add more IT Administrators (or maybe low-level admins of somekind?) to work in conjunction with Sgt Gardner to fix minor computer issues as they occur so problems can be fixed faster by department members that are already on duty.

Examples of common and minor IT issues:

-Printer Connectivity, Live PD camera resets, etc...

Major computer issues should obviously still remain with Sgt Gardner so they can be fixed from a higher level of administration.

I am hoping someone associated with IT or NextGen can fix an issue with EasySt draw on the MMUCC form. Many times when the MMUCC is opened and you click on the diagram page it states EasyStreet draw is not downloaded (even though it is). You then have to restart Nexgen or the computer and reopen the program/case to have Easy Street draw work.

- would intersection templates be able to be created/saved and used to complete the MMCC as we use to do before the Nexgen Program, (Sgt. Walsh + Ptm. Mulvihill had several templates)
- would EasyStreet Draw be able to be downloaded on

Admin Affair ~~XXXXXXXX~~ so MMUCCs could be completed in other

Dispatch Polo's Year Round - Niceer than Summer Polo's

- Current Class B is now more like cops B+

- Polo could be Class B

- Current could be Class B+

- Safety - Current uniforms could be mistaken for Police in Public

Scheduling App/Software

- Would have growing pains but in long run would be great

- Employees want to log in and see Sick/Vacation Banks and get alerts for Schedule changes. Would probably make YOUR job easier in long run

Dispatch Beards? I KNOW will NEVER happen but doesn't hurt to ask

- We don't "Fit Test" for masks. Strict Policy on length and etc.

Chief

Continue to lead and mentor the way that you have.
Allow the Sergeants to come into their own and learn decision making
skills that will allow them to succeed. Thank you for all
the opportunities that you have given me over the years.

I DO FEEL THAT MORE DEPARTMENT UNITY WOULD
BENEFIT US BEING A SMALLER DEPARTMENT. IM NOT
SAYING FOR US TO ALL BE BEST FRIENDS BUT HOW COULD
WE HELP EACH OTHER IF WE DONT KNOW EACH OTHER.
WHETHER STRENGTHS OR WEAKNESSES, I FEEL HAVING A
GENERAL UNDERSTANDING OF EACH OTHER COULD INCREASE
CAMARADERIE IN COMMUNICATION AMONGST EMPLOYEE TO
EMPLOYEE. NOT JUST EMPLOYEE TO SUPERVISOR. OVERALL, I
WANT TO KNOW WHAT MORE CAN WE DO AS A TEAM TO
HELP YOU?

I would like to present a quality of life improvement. I think having some sort of online schedule to be able to view fiscal time shift changes, overtime positions, and food job information. ~~also~~ I feel as this would ease my shift confusion and make it a bit easier to track my work weeks. I do not know if there is a system that can do this.

Allow Sgt's to Approve Switching Shifts
when both Patrolman agree. This will make it
easier on you as it will be on Sgt's. -18

more like... how can we help you?

to help take some responsibility off of you to help make your life slightly easier, allow "flex" hours or "shift swaps" that don't affect payroll/OT to go through patrol supervisor. This makes it a little smoother/convenient in terms of communication and makes it one less thing you have to think about.
