Customize to Your Brand

Use the Samsung Kiosk app to easily customize the kiosk to your brand.

High-Impact Menus to Entice Customers

GRUBBRR's award-winning platform uses high-resolution menu images and intuitive design to make ordering fast and easy.

Trusted by the best in the business

Self-Ordering Made Simple

GRUBBRR's software will automatically ingest an existing Clover menu with pricing data, synchronize Clover payment devices to work with a Samsung kiosk, and reconcile all data in a real-time manner. Our automated, deep integration will enable a Clover merchant to be up and running with a Samsung Kiosk and GRUBBRR software in minutes.

Designed with Small Business in Mind

GRUBBRR Kiosk Setup App enables businesses running Clover to implement self-ordering easily and quickly. It enables the synchronization of your existing Clover menu and the ability to use a Clover payment device with Samsung kiosks. Merchants can also enhance the way their menu items are presented on the kiosk.

- ✓ Affordable self-ordering for Clover. No contracts, cancel anytime
- ✓ Increase average ticket size with consistent upsells and high resolution menu images
- ✓ Fast and easy setup in less than 20 minutes.
- ✓ Dedicated 24x7x365 customer support team
- ✓ Synchronized with your Clover dashboard. Automated item86 and menu updates
- ✓ Fully customizable to your brand including menu images, animated GIFs, and videos

Customer stories

Read success stories from businesses using the Samsung Kiosk powered by GRUBBRR

From an operator perspective, we like the upsell features of the kiosk. From a technology perspective, we like the ability to offer our entire menu, have real-time 86'ing tied into the POS, and enterprise control of multiple units.

Karl Goodhew
CTO - BurgerFi
