

The membership of AFSCME Local 1684 in Humboldt County, California want to express our solidarity with our union siblings in Minnesota as they rally against the criminal actions of ICE in Minneapolis.

We understand that the actions of ICE are far reaching and are a direct threat against both human and labor rights. We understand that an assault on our community members is also an assault on organized labor, and this threat can happen to any of our communities, at any time.

AFSCME 1684 stands with organized labor across Minneapolis as they fight to defend their friends, neighbors, coworkers, community partners and families. An attack on one of us, is an attack on all of us.

In solidarity,

Sarah Ireland

President, AFSCME Local 1684
