

JOB TITLE: Manufacturing Engineer

SUMMARY

The Manufacturing Engineer will be responsible for designing, developing, and improving manufacturing processes, tools, and equipment. The ideal candidate will have at least five years of experience in a manufacturing environment, with a strong background in process engineering, automation, and continuous improvement initiatives.

ESSENTIAL DUTIES & RESPONSIBILITIES

- Design, develop and improve manufacturing processes, equipment, and tools.
- Work with cross-functional teams to identify and implement process improvements.
- Develop and maintain process documentation, such as work instructions & process maps.
- Evaluate and troubleshoot production issues and provide solutions to minimize downtime.
- Identify opportunities to reduce costs and increase productivity through process improvements and automation.

QUALIFICATIONS & REQUIREMENTS

- Bachelor's degree in mechanical, Electrical, Industrial, or Manufacturing Engineering.
- Minimum of five years of experience in a manufacturing environment.
- Proficient in AutoCAD, SolidWorks, or other CAD software.
