Retail environments – Highlight displays, checkout areas and front windows with decorative accents or custom-cut logo artwork

Business offices – Enhance open concept floorplans with unobtrusive separation of staff space and client meeting space

Hotel properties – Define spaces within multi-use areas, such as an indoor pool, restaurant or cafe adjacent to a high-traffic lobby

Schools & universities – Improve focus on studies by muting distracting classroom views or partitioning lab study areas

Public buildings – Create grand first impressions in entries and subtle divisions of space within hallways, stairwells and lounges

Healthcare facilities – Add privacy, conceal clutter, and allow light to flow freely through entries, hallways and waiting areas

TEXTILE SERIES

Enhance privacy with a textural, fiber-inspired aesthetic.

As stylish as printed glass but much more budget-friendly, our Textile Series of decorative films upgrades clear glass with visual interest.

This flexible film series of fabric-inspired patterns adds softness to sterile areas, echoes upholstered furnishings, and attractively disguises undesirable views. Choose the level of privacy and light transmission you desire, from styles that capture the depth and texture of cloth.

Galerías
Monterrey
Footbridge
Monterrey, Mexico

Color and a unique design brighten a glass-enclosed footbridge at the Galerías Monterrey mall. The extensive product line of LLumar® iLLusions™ gave mall managers endless design options with the color stability to endure the harsh sunlight of northern Mexico.

SPECIALTY SERIES

Mask or diffuse light with this expressive palette.

Add artistic flair with our Specialty Series, which offers films in opaque white and black, as well as translucent blue, green, red and yellow. For color stability, we recommend using colors for interior applications. Aside from that, set your imagination free.

Transform any glass surface into a stunning statement: partitions, windows and sliding glass doors are just the beginning. Try colors alone to create distinctive moods, layer multiple films for interesting effects, or combine with custom cutting for one-of-a-kind effects.

"Views and natural light enhance the quality of a workplace. However, they often conflict with program requirements for privacy. LLumar® iLLusions™ films enable designers to provide visual control where required and maximize access to daylight and views. The range of patterns and gradients available provide a broad range of aesthetic opportunities."

GRADIENT SERIES

Unique designs add beauty and privacy to interior spaces.

Design with intention by strategically applying our modern Gradient Series. The gradual shifts cleverly maintain openness and natural light while partially blocking views to hide unattractive areas or elevate privacy.

Choose from a variety of linear or dotted looks, and extend your design on soaring glass panes by combining with a coordinating film from our Matte Frost Series.
