Do I have to use DHI Mortgage as my lender?

No, you are not required to use DHI Mortgage. Our top priority is that you secure the best financial deal for your family, even if that's with an outside lender. However, most buyers find that our in-house lender, DHI Mortgage, offers a package that's hard to beat. This is because they can provide exclusive incentives, such as significant closing cost assistance, and our integrated teams work together to ensure a remarkably smooth, on-time closing.

Will the deal be affected if I'm working with my own real estate agent?

Absolutely not! We love our local co-brokers and highly value their partnership. The price of your new home will be exactly the same whether you are represented by an agent or work directly with us. We are always happy to partner with your agent, and we view them as a key part of the team working together to get you into your new home as smoothly as possible.
