Making Your Strapping Job Easier

The AM650 is a high speed automatic heat seal strapping machine that is designed for ease of operation by equipment operators. It is capable of applying up to 50 straps/minute to a wide range of sizes and types of packages.

The AM650 can operate with 5mm and 6mm strap widths. Because of its ability to use multiple sizes of plastic strap, the AM650 enables the customer to choose the most cost effective Dynaric plastic strap for their packaging process. Offering many standard features that include automatic coil feed system, strap loop ejector, short feed detector, refeed system and foot bar cycle activation pedal. While these user friendly features increase strapping performance and reliability they also provide ease of operation for the equipment operator.
