

# Mooney Method:

## 15 min of reading only

- Read the synthesis for 8-10 minutes and mark it up with “C” for concessions and star(\*) the nuggets you’ll use in your argument
- 5 minutes for doing the chicken foot for the argument FRQ
- (If you do have any time left, read the analysis w/your pen)

## 2 hours of writing

(You have to time yourself for the 3 FRQ’s: 40 minutes per essay)

- I would write my synthesis or my argument first, and then write the analysis.
- (Jot down times from the gym clock and pace yourself accordingly)
  
- Last step: go get fast food and treat yourself
