

Pre-Paint Checklist

Exterior Preparation

To help us complete our work efficiently and with minimal disruption to your routine, please follow this checklist:

Before Our Arrival

- Trim back any bushes touching the house or fence and remove any vines close to or connected to the house. If this isn't possible, we will do our best to paint behind them, but perfect coverage cannot be guaranteed.
- Remove and store items from your front or back porch to protect them during pressure washing.
- Move patio furniture away from the home or group it in the center of the patio. If you need assistance with this, we can help but are not liable for any damages.
- Ensure all windows are closed before we arrive for pressure washing.
- Arrange to contain or remove your pets during the project.
- Provide us with phone numbers where you can be reached during the day.
- Relax! You've hired professionals who do this every day. We understand the inconvenience of having work done at your home, and we'll strive to make the process as smooth as possible.
- If you cannot complete any of the tasks on this checklist, please contact us, and we will make the necessary arrangements with you.

Our Services Include

- Covering walkways and patio floors with plastic sheeting.
- Covering all patio furniture with plastic sheeting.
- Returning any patio furniture we moved back to its original place after completing the job.
- Removing rubbish and empty paint containers from the job site.
- Marking and leaving any leftover paint cans for you.

Final Inspection

The foreman or our office will inform you of the expected completion date and time. We ask that you walk the property with the foreman once the job is finished to inspect the work and ensure you are satisfied. We will handle any touch-ups at this time to avoid having to return later (though we will if needed, according to our warranty).

After your inspection, please sign the contract and either pay the foreman directly or call our office with your credit card information. If you are unable to do a final walk-through, we still require final payment. Please contact our office to settle the balance due.

At Hatch Painting Company, we take pride in our professionalism and craftsmanship. We take the time to prepare and protect your property as if it were our own, providing the best possible service to complete your project efficiently and effectively.
