HAHN CAPITAL MANAGEMENT, LLC

INVESTMENT PHILOSOPHY

Risk Management is the key to superior long-term investment results

How Do We Manage Risk?

- **Identify And Purchase High-Quality Mid-Capitalization Companies**
 - Strong Financial Structure
 - Seasoned Management Team
 - Sustainable Competitive Advantage
- **Isolate And Address Risk First, Then Return Potential**
 - Separate Acceptable Risk From Unacceptable Risk
- **Buy Only Our “Best Ideas”**
 - Fewer Companies But We Know Them Better

HAHN CAPITAL MANAGEMENT, LLC

INVESTMENT PROCESS

IDEA GENERATION (Phase 1)

- \$2B to \$50B market capitalization range
- Must be at compelling discount to business value
- Must see one or more ‘Value Creators’
- Must pass *initial* risk assessment

DUE DILIGENCE-In-Depth Risk Analysis (Phase 2)

- Evaluate risk before return potential
 - Stock Ownership Risk
 - Capital Resource & Accounting Risk
 - Management Risk

ANALYSIS & DECISION (Phase 3)

- Quantitative: Proprietary model tailored to business
- Qualitative: Access to management essential
- Review risk factors again
- Set Buy and Sell Prices

“*Discovery* consists of seeing what everyone has seen but thinking what no one has thought”

Albert Szent-Gyorgyi Von Nagrapolt

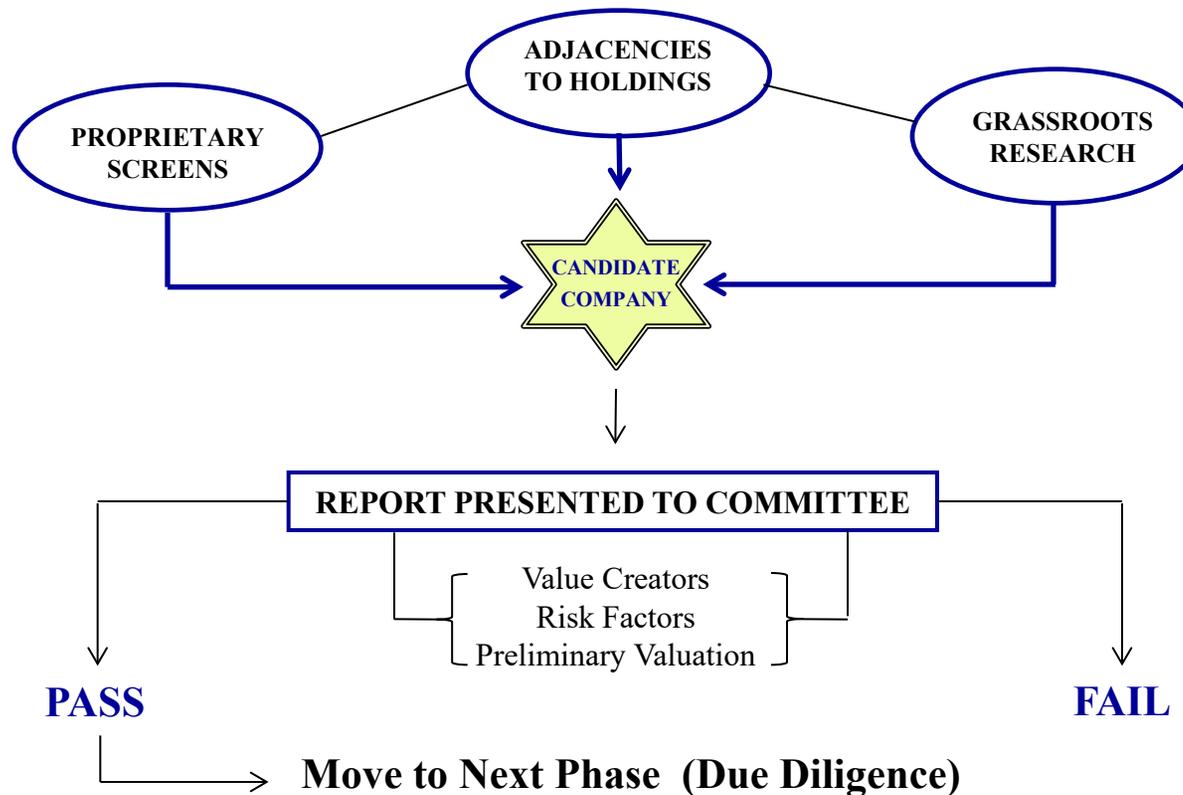

Nobel Prize Winner of Medicine, 1937

HAHN CAPITAL MANAGEMENT, LLC

IDEA GENERATION (Phase 1)

The Goal of The Idea Generation Phase is to identify candidate companies between \$2-50B market capitalization with a **well-defined value creation thesis, a compelling discount to intrinsic value, and an acceptable risk profile based on initial risk analysis (report card)**

Three Primary Sources of Ideas

HAHN CAPITAL MANAGEMENT, LLC

DUE DILIGENCE (Phase 2)

The Goal of the Due Diligence Phase is to identify all risk factors that are *not related* to the business model; understand and categorize these risks in order of relative importance

➤ **Ownership Risk** —————→ Understanding the non-fundamental risks of holding the security

- Shareholder Profile
- Liquidity
- Stock Trading Characteristics

➤ **Capital Resource & Accounting Risk** ———→ Understanding the capital structure and the nature of all potential liabilities

- Capital Structure
- Pension Liabilities
- Off Balance Sheet Liabilities

➤ **Management Risk** —————→ Understanding the true relationship between shareowners and managers

- Stock Ownership Profile
- Management Compensation Structure
- Insider Trading Activity

HAHN CAPITAL MANAGEMENT, LLC

ANALYSIS AND DECISION (Phase 3)

The Goal of the Analysis and Decision Phase is to develop an in-depth understanding of the business model and associated risks and establish an estimate of intrinsic value

QUALITATIVE ANALYSIS

- Unit Economics
- Barriers To Entry
- Power of Customers/Suppliers
- Sustainable Competitive Advantage
- Quality of Management

QUANTITATIVE ANALYSIS

- Evaluate Balance Sheet
- Customize Methodology
- Measure Business Value
- Multiple Scenarios/Outcomes
- Establish Expected Return

Independent Judgments & Long-Term Time Horizon

Value-Added Decisions

HAHN CAPITAL MANAGEMENT, LLC

PORTFOLIO MANAGEMENT PROCESS

CONTINUOUS REVIEW → **Challenge our original investment thesis in the context of:**

- Progress towards value creation
- Management execution
- Strength of business model

RISK MATRIX → **Provide a framework for rebalancing portfolio to optimize risk and return**

- Position size
- Discount/Premium to intrinsic value
- Fundamental risk profile
 - Balance sheet, Management Execution, Industry Conditions, Insider Activity

SELL DISCIPLINE → **Take the emotion out of the decision by applying our discipline consistently**

- Reduce positions when stock weight > 5% and/or sector weight > 25%
- Sell position when intrinsic value has been realized
- Sell position if value creation thesis fails to materialize

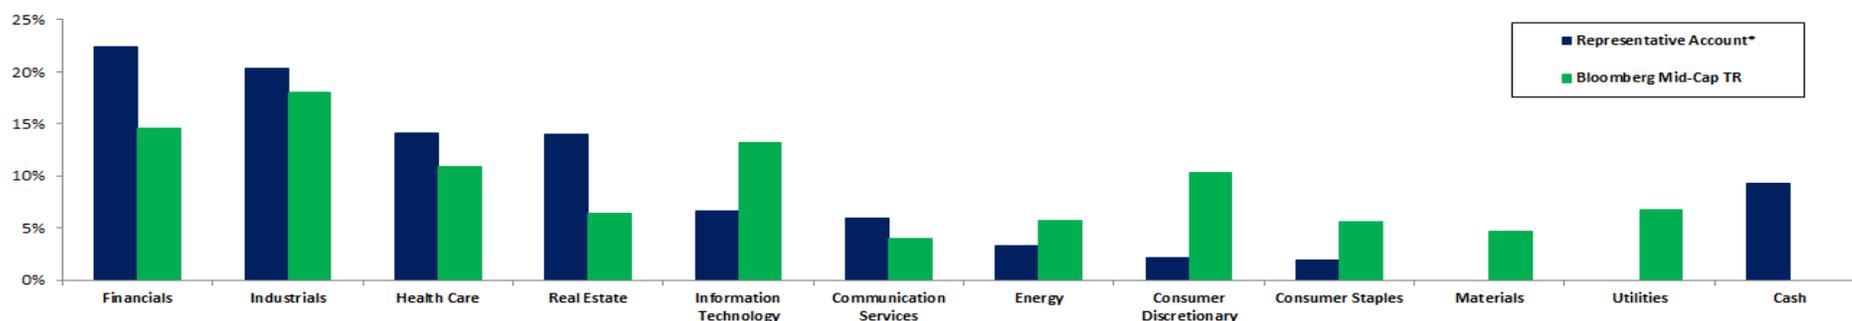

***** CONTINUOUS REVIEW + RISK MATRIX + SELL DISCIPLINE = VALUE-ADDED DECISIONS *****

* Supplemental Information - Total Firm Assets includes UMA/SMA assets not included in the GIPS defined total firm assets.

** Total Firm GIPS Assets and Composite Assets do not include UMA/SMA assets.

*** Advisory Only Assets - Assets are not included in the GIPS defined total firm assets.

**** Composite and benchmark returns are for the period 06/30/1988 through 12/31/1988.

***** The annual composite dispersion is an asset-weighted standard deviation, using gross-of-fee returns, calculated for the accounts in the composite for the entire year. The three-year annualized standard deviation measures the variability of the composite gross returns over the preceding 36-month period.

N.A.1 - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

N.A.2 - Information is not statistically meaningful due to an insufficient period-of-time.

Performance Disclosures on page 17

HCM MID CAP VALUE COMPOSITE

ANNUAL DISCLOSURE PRESENTATION

Hahn Capital Management, LLC (“HCM”) is an investment adviser registered with the Securities and Exchange Commission. Hahn Capital Management, LLC is not affiliated with any parent organization.

Hahn Capital Management, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. HCM has been independently verified for the periods January 1, 2004, through December 31, 2025. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The HCM Mid Cap Value has had a performance examination for the periods January 1, 2004, to December 31, 2025. The verification and performance examination reports are available upon request. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

HCM employs a Mid-Cap Value Strategy for portfolios in the HCM Mid-Cap Value Composite. The Mid-Cap Value Composite accounts are invested in mid cap U.S. stocks with a market capitalization between \$2 billion and \$50 billion at the time of initial purchase, and that have a similar investment objective of exceeding the annualized return of the Bloomberg Mid Cap Total Return Index over a three-to-five-year time-period. The foundation of HCM's investment selection process is bottom-up, fundamentally driven security selection. Our approach combines our original quantitative research with our fundamental judgment. We place significant emphasis on due diligence to assess the risk potential of each investment candidate before assessing its return potential. The discovery of value within specific securities, rather than market sectors, drives the construction of the portfolio. Our in-depth research process results in a concentrated portfolio of companies. A list of all composite strategies offered by the firm, with a description of each strategy, is available upon request. The type of portfolios in which each strategy is available (segregated account, limited distribution pooled fund, or broad distribution pooled fund) is indicated in the description of each strategy.

Composite Description: All actual, fee-paying, discretionary portfolios are included in at least one composite and there are no non-fee-paying portfolios included in any composite. The mid cap value equity strategy composite includes all actual, fee-paying, discretionary taxable and tax-exempt portfolios that do not contain any restrictions, which were under management for the first full month for which results were calculated. The composite includes zero transaction cost(-commission-) accounts.

Performance results are determined with monthly valuations geometrically linked for period returns. The U.S. Dollar is the currency used to express performance. It should not be assumed that past performance is indicative of future results. Results are based on fully discretionary accounts under management, including accounts no longer with the firm. All performance calculations are on a time-weighted, asset-weighted return basis and include the reinvestment of all income. The net of fees performance is net of an annual, model management fee of 1.00%, commissions and custodian fees. The model fee is the highest fee charged to any account included in the HCM Mid-Cap Value Composite. Gross of fee performance is gross of management fees and net of commissions and custodian fees. HCM's advisory fees are described in its Form ADV Part II. The fee schedule for the HCM Mid-Cap Value Composite; First \$5 MM at 1.00%, Over \$5 MM but less than \$10 MM at 0.75%, Over \$10 MM but less than \$15 MM at 0.60%, Over \$15 MM Negotiated. Actual fees for each client may vary. Non-discretionary portions of an otherwise discretionary portfolio have been excluded from composite performance. Performance calculations: June 1988 to December 1999 excludes all non-discretionary cash from an otherwise discretionary portfolio, consistent with guidelines established by client(s) designating un-invested cash as non-discretionary assets. HCM Mid-Cap Value Composite was created on June 30, 1988; HCM Mid-Cap Value Composite since inception date is June 30, 1988.

The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year.

As of January 2025, the Bloomberg Mid-Cap Total Return Index replaced the Russell Mid Cap Value and Russell Mid Cap Index for all periods. HCM no longer licenses Russell index data for commercial reasons.

HCM compares the performance of its Mid-Cap Value Equity Composite against the Bloomberg Mid-Cap Total Return Index, which is an unmanaged index and does not reflect any adjustment for management fees or other transaction costs. The Bloomberg Mid-Cap Total Return Index is a float market-cap-weighted benchmark of the lower 800 in capitalization of the Bloomberg US 1000 Index. The stocks in HCM's Mid Cap Value Composite may or may not be included in the Bloomberg Mid Cap Total Return Index and may or may not have similar valuation characteristics as the index.

HAHN CAPITAL MANAGEMENT, LLC

SOLICITATION DISCLOSURE STATEMENT

Hahn Capital Management, LLC (“HCM”) maintains a solicitation arrangement with Cedar Partners, Ltd. (“Cedar”), a third-party marketing firm, effective April 1, 2008. Cedar receives an annual retainer fee as well as 20% of the investment management fees earned on assets placed under management at HCM by the efforts of Cedar. Cedar is not affiliated with and has no relationship with HCM other than a separate written agreement covering the solicitation of business on the behalf of HCM. Cedar is not a broker-dealer. All fees paid to Cedar are in hard dollars. HCM has a standard fee schedule and is not adding a differential to compensate Cedar for any solicitations by them.
