## Keith's Thoughts

As I write my thoughts for the December newsletter I pause to reflect the years events. In the first four months we merged two clubs together and combined the officers into one board. Through that we have continued to offer events for you to attend. Our Spring picnic had about 140 attendees a record for both clubs. I would like to take this opportunity to thank the board members for their hard work, enthusiasm and dedication.

Now that Black Friday is over, I want to remind you of our bargain Holiday Lunch coming up. As I stated last month the board is subsidizing the price to \$30 to encourage as many members celebrate the new club. I would like to exceed the 140 people we had at our kickoff picnic. You need to sign up by December 9<sup>th</sup> to reserve your seat.

The Holiday Lunch is at a new venue with a new menu so please do not delay signing up. You can sign up online and pay with a credit card using PayPal.

We have several new events planned for next year. In early January you can see what happens to all that Christmas wrapping paper that you throw out. We will visit the City of Phoenix North Gateway Transfer Station and Materials Recovery Facility (MRF). Now you can experience the sight, sound and smell of recycling.

Wrigley Mansion is another new tour for the club. I have not been there before but I understand the private tour showcases the mansion's intricate architecture and stunning interiors. Discover the colorful history and memorable details of two grand families – Wrigley and Hormel – that make the Wrigley Mansion one of Phoenix's most storied landmarks. Along the way, you will find out what makes us an award-winning fine dining and special-event venue.

The Caribbean Cruise aboard the new Sun Princess in March is in two parts, Eastern and Western Islands. You can combine the two if you wish. Experience the relaxed Caribbean lifestyle on the quintessential vacation surrounded by white-sand beaches, turquoise waters and tropical wonders. Swim, snorkel, sail on a catamaran and indulge in authentic Caribbean cuisine. The excitement continues on board with Rhythm of the Caribbean, offering activities for all ages that bring the island vibe to life, from music and dance to rich cuisine. For details check the article inside.

We are still looking to publish an article about the different divisions each month. All we have received so far are avionic stories but surely there has been something interesting in nuclear power plant control or oil refineries etc. It could be about your favorite product/project or some amusing story that happened in your career. Please contact Joyce the newsletter editor if you have any suggestions at [hrac.navigators@gmail.com](mailto:hrac.navigators@gmail.com)

Our new website continues to be updated with the latest information on upcoming events. The site is the go-to place to sign up for events, see pictures of past events and review past copies of our newsletters. The new website address is [hracaz.org](http://hracaz.org)

***Ever wondered what happens to all your trash and how it gets recycled?***

Well now you can find out.

## ***Zero Waste Team Education***

The City of Phoenix has goals to reach 50% waste diversion by 2030 and zero waste by 2050, consistent with the goals set by the City's [Climate Action Plan](#). To reach these goals, Phoenix seeks to develop the circular economy and maximize recycling and reuse efforts to further divert resources away from the landfill. Our efforts will lessen environmental impacts by reducing the amount of greenhouse gases entering the atmosphere, while creating healthier communities, and spurring economic activity.

In order to reach the city's zero waste goal by 2050, the Zero Waste team provides education and community outreach to teach the community about waste diversion. These methods include group tours of the city's North Gateway Transfer Station and Materials Recovery Facility (MRF), educational presentations to schools, neighborhood and community meetings and hosting informational booths at community events.

Now you can experience the sight, sound and smell of recycling at the North Gateway Transfer Station. The address is 30205 N Black Canyon Hwy, Phoenix, AZ 85085. Gate 3. I have organized a group tour on Thursday January 9<sup>th</sup> at 10am. The tour lasts 1 hour.

## Southwest Airlines - March 13<sup>th</sup>

It is the 8<sup>th</sup> time to tour the popular SW Airlines Maintenance Facility again. Last time we had a very interesting presentation on the origins of SW and toured the new hanger still under construction. The only 2 aircraft available to view were on the apron and closed up but our host pushed some steps up to one and opened the door for us. After that we are on our own so several of us sat in the cockpit, tried out the seats in the cabin and marveled at the small galley and toilets. Every tour is different. Once we sat in a brand-new aircraft with 5 flight hours and had not entered service.

This free tour is planned for Thursday March 13<sup>th</sup> at 10 am, but names of all attendees are required in advance for security purposes. This will be our 8<sup>th</sup> tour and spaces fill quickly. I have to limit the group to 40 for practical reasons.

To register sent the full names of all in your party to Keith Hughes at [keith8411@cox.net](mailto:keith8411@cox.net) or go to events for the [Southwest Airlines tour](#) to signup

## ARIZONA BROADWAY THEATRE

7701 W. Paradise Lane, Peoria

Thursday, March 20, 2025. 12 noon.

**Cost: \$70 per ticket. Details below.**

*"Yeston and Arthur Kopit's Phantom" is a musical adaptation of Gaston Leroux's famous novel "The Phantom of the Opera." The musical follows the plot written by Leroux and provides a deeper insight into every character, their motivations, and their back stories. We begin by meeting Eric – disfigured from birth yet as beautiful on the inside as he is misshapen on the outside. He was hidden beneath the famous Paris Opera House to live out his years. When an untalented egomaniacal Diva takes over the Opera House, the musical environment so dear to his life, and on which he subsists, he is shattered. When seeking a voice and a singer to restore the beauty, he finds himself falling in love with Christine Daae. This beloved story version of "Phantom" features a score that blends elements of classical and contemporary musical theatre styles while providing a fresh take on one of literature's most iconic characters.*

**DETAILS:** Lunch service starts at noon; the show begins at 2 p.m.  
**INCLUDED:** Standard soup or salad, choice of standard entrée, coffee or tea and \$4 gratuity included in your ticket price.

**Tickets are limited**, and non-members are welcome to join us. To reserve your seats, email Kevin Vetter at [snuffles@Q.com](mailto:snuffles@Q.com)

Once he confirms there are tickets available, please send a check ASAP to secure your seats.

## Insight into our History

# distributor newsletter

**STANDARD IN CITATION** --- Cessna Citation panel features new Sperry SPI-81 5-inch instruments on pilot's side and 4-inch STARS instruments on right. Citations from aircraft number 275 and subsequent are equipped with

Sperry SPZ-500 autopilot, new flight director system, air data computer and displays, plus Sperry STARS radio altimeter. New autopilot controller for SPZ-500 is mounted on center console beneath throttles.

## Sperry now standard in Citation

Sperry autopilot and instruments are now standard on the Cessna Citation.

Beginning with Aircraft No. 275, due off the line in Wichita in July, standard factory equipment will include the new SPZ-500 autopilot, air data computer, SPI-80 or 81 flight director instrument system, V/NAV computer, and servoed barometric altimeter. A Sperry radio altimeter is a factory installed option.

Options for the co-pilot's side involve several combinations of STARS four-inch instruments including the GH-14 gyro horizon with flight director bars, HZ-454 single-cue ADI, and RD-444 HSI.

The new SPI-81 five-inch instrument system includes Sperry's first five-inch single cue ADI, the

AD-600. With the cross-pointer AD-300, the system is the SPI-80. Cessna offers a choice of either AD-600 or AD-300 at the same price. A new HSI, the RD-600, is common to both systems.

A common flight director/autopilot computer, the Z-500, mixes data from air data computer, vertical, directional, and rate gyros (all Sperry), and nav radio/DME to provide altitude pre-select, course tracking, vertical speed and Mach hold functions. With the V/NAV computer it allows selection of computed vertical flight path.

Sperry Flight Systems will take delivery of Aircraft No. 275, to be used for flight demonstrations and future development work.

***Looking for new board members***

The HRAC Club currently has 15 Board members working to keep the Club going. As the Club gets older so do, we.

Several of these members have been on the board for many years. If anything was to happen to them or they resign from the Board, the HRAC Club could be in jeopardy. To keep HRAC from being at risk we need more Board members.

If you can spare a little time and like to work with others, please contact any one of the Board Members on page 2. What do you get for doing this? The same as us, the pleasure of knowing you are keeping a legend going.
