

Home Systems Protection Fills Coverage Gaps

Starlight's Home Systems Protection coverage fills important gaps affordably providing a contemporary, competitive edge. All too often homeowners experience an unfortunate event such as a mechanical breakdown of a central air conditioning unit, boiler or furnace. As a result, homeowners are faced with costly repairs that are not covered under most homeowner policies.

Covered Equipment

Home systems essential to heating, cooling, comfort, convenience and operation of the home. Examples of covered Home Equipment:

- Furnaces, boilers and heat pumps
- Radiant and geothermal heating systems
- Air conditioning and ventilation
- Electrical distribution panels
- Hot water heaters
- Water treatment and filtration
- Emergency generators
- Fire and security alarm systems
- Pool pumps and filtration
- Chairlifts
- Photovoltaic systems
- Auto charging stations
- Wind turbines

Personal Property includes contents equipment that homeowners use and rely on every day for entertainment, communication and maintenance of their home. Examples of covered personal property:

- Kitchen and laundry appliances
- Home entertainment electronics
- Computers, laptops and tablets
- Health monitoring systems
- Home exercise equipment
- Home tools and workshop equipment
- Lawn and garden equipment
