

Money is NOT a Resource. It is just a paper to make barter easy. Money is purely an easier way to TRADE our REAL Resources. The “Blockchain” will give us ways to trade .. JUST between us.

Each one of us owns 3 REAL RESOURCES or ASSETS ..

With JUST trading these resources, we can create a good life.

Be Excited .. we can create a new Society!

24 HOURS each day

Our Personal Resources ..

- skills and talents
- expertise, special knowledge
- character flaws, or advantages

Health and Time are even more important, then our talent or expertise.

The 24 hours we each get daily .. can NOT be saved.

If we are feeling awful, that Time to accomplish is LOST, never regained.

The smartest choice for us to use this “free” time? .. **REAL HEALTH ..**
