Sis. Erwin teaching the  
Sunday School Class

## Sunday School Matters

Part of our missions work is encouraging and growing ministries within our church body. It is our desire to be a work for God that is fitly framed together and a temple in the Lord. Our focus recently has been on helping people find their ministry and to push through the doubt and the apprehension to step out in faith and see what God can through each of us. Don't hold back on what you can do for the Lord. Maybe a talent or skill lays undiscovered in your life, just waiting to be discovered and let loose with your step of faith and some practice.

Our Sunday school kids have been encouraged to step into their ministries and too see what is hidden within their lives. Sis. Erwin has been helping out in the Sunday School class with teaching the kids first about giving their lives to the Lord and with the support of their families to be baptized and filled with God's Spirit. There's truly nothing like a humble servant of the Lord who is saved, healed and sanctified glorifying the Lord within the sanctuary.

It is such a blessing to the church to see our children stand during our testimony services and boldly proclaim what God has done for them.

*Thanks FOR EVERYTHING*
