

# JOIN DISCORD.APP -- CREATE YOUR COMMUNITY SPACE

Discord is an instant messaging and VoIP social platform which allows communication thorough voice calls, video calls, text messaging, and media and files. Communication can be private or take place in virtual communities called “servers”. And Discord allows users to create split-screen chat with visuals.

Discord is quickly becoming the internet’s primary meeting place, whether you need a virtual space to collaborate, create or just geek out with friends over your favorite games. A Discord server can be anything you want it to be — from a virtual classroom to a place to swap art and music ideas — and getting started on the platform is a breeze. And since it’s free, there’s no reason not to try setting up your own server or browsing the service’s multitude of public communities. You might just find your new favorite place to hang out.
