Get the exact results you want

There's nothing like the feeling of getting that first paid job. Some individuals with barriers may feel like paid employment is out of their reach, but it does not have to be. Families and individuals can work towards success in employment by focusing on building skills employers want, developing good work habits, discussing the impact of this if necessary, and showcasing talents and a positive attitude during the interview process.

Tampa Connect Group, Inc.

(TCG) has many employment partners in our local areas who understand that sometimes people just need a chance to show what they can do. We are here to help you find that employer.

Securing employment in today's job market is a difficult task in itself. If you have barriers such as a disability, lack of transportation, or perhaps you have not worked in a few years, the task of finding employment can be even more

Continued support

Once you have been on the job for some time and feel comfortable working on your own, your job coach will step back and let you work independently.

Once independence has been achieved, the job coach will still visit you on the job site. This will allow the job coach, you, and your employer an opportunity to discuss and resolve any issues or changes regarding the job.

Follow-Along is an important part of long-term job success.
