

THE INTAKE PROCESS

OUR TEAM UNDERSTANDS HOW OVERWHELMING IT CAN BE FOR FAMILIES TO NAVIGATE THE TREATMENT PROCESS. WE ARE HERE TO HELP PUT YOUR NERVES AT EASE AND GUIDE YOU, STEP-BY-STEP.

Some insurance companies require a Prior-Authorization, which grants our providers permission to conduct an assessment with your child. Our insurance authorization team will coordinate with your insurance company on your behalf in order to gain all necessary authorizations.

Our insurance authorization team will submit the treatment plan to your insurance company, along with a request for ongoing treatment. Once authorization is granted, regularly scheduled therapy sessions can begin.

INTAKE MEETING

PRIOR-AUTHORIZATION

ASSESSMENT

AUTHORIZATION FOR SERVICES

During this initial meeting, our team will explain the therapy process and describe the services we provide. We will gather more information from you regarding your families specific needs and goals to determine if our ABA services are a good fit. We want you to leave the meeting feeling confident with your decision to proceed.

One of our Board Certified Behavior Analysts (BCBA's) will conduct an assessment to measure your child's current level of functioning. The results will help guide treatment recommendations and the development of the Treatment Plan. A meeting will be scheduled to discuss the results with your family.
