**Polywater® PHPS**  
Solutions at work.

**STANDARD MECHANICAL SEALS WITH  
SEGMENTED RING TECHNOLOGY FOR PIPES.**

### WHAT IS IT?

PHPS segmented ring technology allows the fitting of numerous pipe sizes within a single seal without the need to consult a sizing chart. An excellent option to keep in inventory or on service trucks.

### BENEFITS:

- Faster and easier installation alternative to modular style seals
- Reduces labor saving time and money
- Reliable connection that's completely gastight and watertight
- Provides a single solution; ideal for smaller pipes or multiple pipe OD's covered with one seal
- Designed for PVC, GRC, and cast iron pipe OD's
- Innovative engineering from Polywater® and hauff-technik®
- 4 different sizes available

## Smart Monitor

Visual Diagnostic  
Plugs & Connectors

**Ideal for any  
environment  
that requires  
a watertight  
seal of a  
plug and  
connector.**
