YOUTH EMPOWERMENT PROGRAM

The NSNS Youth Empowerment Program is a youth diversion initiative targeting minors in Maryland. Its primary goal is to prevent youth from entering the adult prison system, reduce juvenile delinquency, and address critical issues such as homelessness and school dropouts. By providing comprehensive support and resources, the program empowers young individuals to make positive choices and build successful futures. Encouraging youth to engage in discussions with their peers about key issues and understanding juvenile justice form and it impact their communities can create a ripple effect that strengthens.

We serve youth aged 14-19 who face various challenges, including:

Involvement with the justice system
LGBTQIA+
Exposure to gang influences

IEP&504 Plans
Difficulties transitioning to higher education or vocational training

By focusing on these areas, NSNS empowers young individuals to transform their lives and contribute positively to their communities:

Resilience Building:

Foster emotional strength and adaptability to face challenges effectively.

Skill Development:

Provide training in critical life skills, leadership, and conflict resolution.

Community Engagement:

Encourage active participation in community initiatives, promoting positive change.

Supportive Environment:

Create a safe space for youth to express themselves and grow.

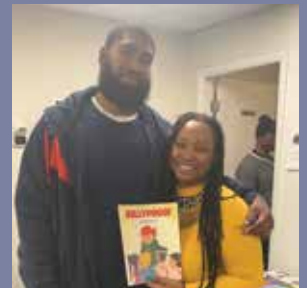

We address the root causes of delinquency and providing a supportive, school-like environment. We help our youth develop the skills and confidence needed for successful futures. We aim to build resilience, reduce the likelihood of recidivism, and empower youth to become trailblazers in their communities.

We help to improve interpersonal and inter-group relations, and reduce incidents of conflict and bullying. By empowering students to resolve their own disputes, these programs foster a sense of community and encourage positive relationships among peers through mediation and managing interpersonal conflict in teens.

Students are given the opportunity to apply communication, human relations, and problem-solving skills in real-life settings. Participants can engage in the program for a minimum of 6 months and a maximum of 18 months. Services are tailored to meet each individual's specific needs, ensuring personalized support throughout their journey.

Our prevention and intervention programming are designed to reduce criminal and delinquent behaviors by providing school-based services to youth in:

- Baltimore City
- Baltimore County
- Youth Detention Center (YDC)
- MD Department of Public Safety & Correctional Services
Division of Pretrial Detention and Services
