## HINTS TO MAKE YOUR STAY EVEN BETTER

Living in a lake and woods environment mean living with ants, “no-see-ums” and other pesky insects.

- Store food in refrigerator or air tight storage bags and containers.
- Remove trash daily; wipe off surfaces where food or beverages have been placed.
- Keep cosmetics and toothpaste sealed.
- Do not leave doors and windows open, especially at dusk and dawn, to avoid being bitten by no-see-ums.
- Shake out beach towels and bags to avoid carrying bugs inside.

**Air conditioners will “freeze-up” if not properly set or used.**

- Do not set thermostat below 74 degrees.
- The settings should be on “cool” and “auto”.
- Close all windows and doors.

**Refrigerators need 24 hours to adjust from being empty to full.**

- Do not overstuff and avoid putting in warm beverage cans and bottles during the first 24-hour period.
- Do not lower the temperature setting to the coldest level.

## WHAT ARE MY RESPONSIBILITIES FOR CLEANING MY RENTAL UNIT?

We certainly do not expect our guests to completely clean their vacation home prior to checking out, but we request that the unit be left in reasonable condition. The cleaning staff would appreciate if you would remove trash from the unit and place in the proper receptacle as well as return furniture to its original position. The linens in your unit have been inventoried before your arrival. Any extraordinary cleaning or missing linen items may incur additional charges to the credit card you have left with us as a security deposit. Please check all drawers and closets for your personal belongings. Star Point is not responsible for lost or missing articles.
