Appointment / Cancellation Policy

1. Confirming appointments

We have a confirmation system that will send out reminders for your upcoming appointments. These
reminders will come in the form of email, phone, text, or all of the above. We will ask you to confirm your
appointment between 24 & 48 hours prior to your scheduled appointment. Because of this, it is very
important that we have the proper phone number and email for you. Please update us if anything changes.
The confirmation system will also send you a quick reminder just a few hours before your appointment.

2. Cancellation / No-Show Policy for Appointments:

- We understand there are times you must miss an appointment due to emergencies or obligations for work or family. However, when you do not call to cancel an appointment, you may be preventing another patient from being seen. Conversely, the situation may arise where another patient fails to cancel, and we are unable to schedule you for a visit due to a seemingly "full" schedule. Therefore, we ask that you give us 24-48 Hours' Notice if you need to cancel or reschedule an appointment.
- If an appointment is not canceled at least 24 hours in advance you will be charged a \$25 fee. This is not billable through your insurance and will be due before you will be seen again.
- After 3 consecutive No-Show occurrences /repetitive cancellations or rescheduling appointments, Doss Dentistry may elect to terminate our relationship with you.

3. Scheduled appointments:

We understand that delays can happen, however, we must try to keep other patients and providers on time.
 If a patient is 15 minutes past their scheduled appointment time, it will be at the provider's discretion if we will need to reschedule the appointment or go ahead and see the patient.

4. No-Show Policy for Extended Treatment Appointments:

Due to the large block of time needed for some treatment, if a patient No-Shows for their Extended
Treatment procedure, you will be charged a minimum of \$100 up to a \$250 fee depending on the length of
your treatment appointment. This is not billable through your insurance and will be due before you will be
seen again.

Financial Policy

Thank you for choosing us as your dental care provider. We are dedicated to serving your dental needs with the best professional advice, care, and service available. Please understand that payment of your dental bill is considered a part of your treatment. Your clear understanding of our Financial Policy is important to our professional relationship. Please read the following information, and if you have any questions, please ask.

Private Pay

Full payment is due at the time of service. We accept cash, personal check, Visa, Mastercard, Discover, and Care Credit.

Payment Plans

If you would like to make payments, we happily offer CareCredit as our third-party creditor. Apply at www.carecredit.com

Dental Insurance

All co-pays and deductibles are due at the time of each service. We will file insurance claims as a courtesy to our patients, but it does not relieve you of your responsibility for your bill. Please provide us with a copy of your current dental benefits card. If you do not have a current card, payment in full may be required at the time of service.

It is your responsibility to understand your dental benefits plan. Your dental insurance policy is a contract between you and the insurance company. Our dental team believes in recommending treatment for the sole purpose of optimizing our patient's dental health. This may not always align with your insurance plan.

Treatment Plans, Estimates, and Pre-Authorizations

We can provide treatment plans for any work that is needed including an estimate of your insurance coverage, however, these figures are only estimates as your insurance company will make the final determination when the claim is submitted. We can submit a Pre-Authorization with your insurance company for major services. These pre-authorizations often take weeks to come back but may provide a more accurate estimate. Remember, you have a right to refuse treatment if you think it may not be covered or payable by your insurance company.

Statements and Service Charges

I understand that if I fail to pay the entire balance within 30 days from the statement date, a service charge will be assessed each month. I realize that failure to keep my account current may result in the denial of future dental services. In the case of default on this account, I agree to pay all collection costs and attorney fees incurred in collection attempts. I understand that I am responsible for all bank charges resulting from returned checks or closed accounts. A processing fee will be charged for returned checks. If a patient has a balance that has been sent to collections, they will be required to pay that bill IN FULL and any Co-Pays for the next appointment before they will be scheduled.

You, as the patient, are always responsible for the investment	you make toward your dental health.

GENERAL CONSENT TO PERFORM DENTISTRY

I authorize Dr. Brian Doss and/or such associates or assistants as he may designate to perform those procedures as may be deemed necessary or advisable to maintain my dental health or the dental health of any minor or other individual for which I have responsibility, including arrangement and/or administration of any sedative (including nitrous oxide), analgesic, therapeutic, and/or other pharmaceutical agent(s). These procedures include but are not limited to: exams (diagnosis), radiographs, preventative hygiene treatments (prophylaxis) and the administration of fluoride, and application of plastic "sealants" to the groove of teeth.

I authorize Dr. Brian Doss and/or such associates or assistants as he may designate to perform those procedures as may be deemed necessary or advisable to maintain my dental health or the dental health of any minor or other individual for which I have responsibility, including arrangement and/or administration of any sedative (including nitrous oxide), analgesic, therapeutic, and/or other pharmaceutical agent(s), including those related to restorative, palliative, therapeutic or surgical treatments.

I authorize Dr. Brian Doss and/or such associates or assistants as he may designate to perform those procedures as may be deemed necessary or advisable to maintain my dental health or the dental health of any minor or other individual for which I have responsibility including

I understand that the administration of local anesthetic may cause an untoward reaction or side effects, which may include, but are not limited to bruising, hematoma, cardiac stimulation, muscle soreness, and temporary or rarely, permanent numbness. I understand that occasionally needles break and may require surgical retrieval. Occasionally drops of local anesthetic may contact the eyes and facial tissues and cause temporary irritation.

I understand that as part of the dental treatment, including preventive procedures such as cleanings and basic dentistry, including fillings of all types, teeth may remain sensitive or even possibly quite painful both during and after completion of treatment. Dental materials and medications may trigger allergic or sensitivity reactions.

After lengthy appointments, jaw muscles may also be sore or tender. Holding one's mouth open can, in a predisposed patient, precipitate a TMJ disorder. Gums and surrounding tissues may also be sensitive or painful during and/or after treatment. Although rare, it is also possible for the tongue, cheek or other oral tissues to be inadvertently abraded or lacerated (cut) during routine dental procedures. In some cases, sutures or additional treatment may be required.

I understand that as part of dental treatment items including, but not limited to crowns, small dental instruments, drill components, etc. may be aspirated (inhaled into the respiratory system) or swallowed. This unusual situation may require a series of x-rays to be taken by a physician or hospital and may, in rare cases, require bronchoscopy or other procedures to ensure safe removal.

I understand the need to disclose to the dentist and/or auxiliary personnel with current medical history and listing of all medications being taken. I understand that taking the class of drugs prescribed for the prevention of osteoporosis, such as Fosamax, Boniva or Actonel, may result in complications of non-healing of the jaw bones following oral surgery or tooth extractions.

I do voluntarily assume any and all possible risks, including the risk of substantial and serious harm, if any, which may be associated with general preventive and operative treatment procedures in hopes of obtaining the potential desired results, which may or may not be achieved, for my benefit or the benefit of my minor child or ward. I acknowledge that the nature and purpose of the foregoing procedures have been explained to me if necessary and I have been given the opportunity to ask questions.

I agree that the success of dental treatments to be provided will require that the patient and/or parents of the, follow post-operative and post-care instructions of the dentist and/or auxiliary and that regular office visits be maintained.

I recognize that during the course of treatment, unforeseen circumstances may necessitate additional or different procedures from those discussed. I, therefore, authorize and request the performance of additional or different procedures that are deemed necessary and desirable to oral health and well-being, in the professional judgment of the dentist.

I authorize the doctor(s) to use photographs, radiographs, other diagnostic materials and treatment records for the purpose of teaching, research and scientific publications.

i turtner understand that this consent will remain in effect until such time t	nat I choose to terminate it.
