Bespoke Facials

Our facial treatments are the perfect combination of technology and the elements of traditional facials. We will work together to create a personalised treatment plan, simplify your skincare and help you achieve the results you're after. No two skins are the same and this is why ALL of our facials are designed to follow the stages of YOUR skin and can be completely customised to YOU, your skin and its condition.

Our promise: You will feel pampered and cared for.

Tesla Former

This revolutionary muscle building, strengthening and body sculpting technology uses Tesla energy to stimulate strong muscle contractions above the level possible through exercise alone. Tesla Former lifts and firms the treated area, targeting deep into muscles that can be difficult to activate during exercise.

Tesla Chair

Strengthen and restore pelvic floor muscles with Tesla Chair. FMS technology stimulates strong muscle contractions to the pelvic floor well above the level possible through Kegels and physiotherapy. Say goodbye to incontinence.
