

detoxification

can supplement energy ,Rui-Kang Cai: National Health Committee cosmetic safety assessment, national director of the Ministry of Health Pharmacological Base, the Air Force General Hospital, Beijing National Committee and professor of cosmetic dermatology cosmetics industry expert Committee of the Chamber of Commerce.

"The

accumulation of toxins in vivo is an important factor to the disease.

The medical study found that the human suffering from allergies, functional decline and diseases such as cancer and internal organ, blood and other violations by the various toxins. Such as harmful gases, dust particles and heavy metals erosion; infect toxins in the eating; and body suffer from radiation. " The toxins accumulated in the body, affecting people' s health. In many detoxification methods, Hao Li ion to purify SPA instrument can create negative electric field and small molecules of water, restore the normal human cells potential to damage human cells restore and maintain the health of self-detoxification, but also the entire human energy system was added.

End of detoxification takes - Xi-Heng Guo constant: the capital Beijing Chaoyang Hospital Medical Clinic Director of the Center for respiratory diseases, Professor.

"In

real life, many people ignore or unable to maintain dynamic, do not balanced nutritional diet, the reduction of defecate times and decrease of extension time, resulting accumulate toxins, so that occur various diseases. Early realize importance of detoxification, solving the problem of detoxification. In other words to restore the body organ function, completed oneself mission. "

Through HaoLiLai ion

detoxification, restore intestinal peristalsis, effective solution to

constipation, bloating, bad breath and other issues; make Blood running smoothly, temperature dependent limbs, decrease blood glucose and blood lipid, stable blood pressure; reduce burdens of Kidney, and effectively filter toxins in the blood; As with hepatopulmonary officials revitalized, the detoxification completed his mission to resist the invasion toxin.

Repair

human virtuous circle - Shi-Lin Hu: State Science and Technology Commission of life science and technology development centers expert members of the Commission, the Ministry of Health Drugs Accreditation Committee, the China Institute of Traditional Chinese Medicine Branch chairman of medicine, pharmacy members of the United States. "Detoxification health has become a fashion trend in the human body is full of" toxins "in the internal and external environment to survive. Toxins accumulated in the body, leading to Fuzang, organizations, organ dysfunction, qi disharmony, metabolic disorders and endocrine disorders, caused various diseases. A correct understanding detoxification can be further repair the body' s own detoxification system. "

HaoLiLai SPA ion to purify

water and through the instrument cells will transfer out toxins. And effectively stimulate the cell membrane Na +-K + pump to increase cellular energy, increased cell metabolism and self-detoxification, regular use will be conducive to easing the burden on the kidneys and liver. Its main effect: the natural detoxification of the body; Ease the physical and bodily organs

Detoxification burden; To promote the metabolism and blood circulation; The increase in energy; Repair body detoxification system, making the body' s own detoxification function repair, and can achieve lasting fundamental purpose of the long-term detoxification, forming a virtuous circle.

Healthy

living cells from the start - Russell. Fossett Imperial College London Medical Branch in God sperm rescue, biological rhythm international authoritative experts. "When a person living in tension in

the day, more susceptible hypertension. In a tense upset by finishing framing smoking, nicotine large invasive lung, and he is unable to promptly remove, to the toxic accumulation of suffering from chronic disease risk by Xun. "

City people struggling back, can eat almost

become saturated the dream sleep, and some fashion in ways men and women over the arena as sleep deprivation were. To improve the health status of the body, in addition to give up the bad habits should start from the internal body will completely wipe out the toxins. Some human blood circulation for a period of 30 minutes, through this "detoxification foot bath of" foot, basically the body parts to a complete detoxification. Purification potential instrument can resume normal cells, reducing local tissue resistance, and get through the meridians, to-the active, ventilation Huoxue to eliminate the pain purpose; Also in the body of free radicals and protect the body from free radical attack, the radical right to avoid harm to the human body.

Stripping transparent body fat - Da-Zhen Wu: China Institute of Science and Technology, vice president of health "China

Nutrition Institute released survey shows that urban residents carnivore and excessive oil consumption, low cereal food consumption; Calcium, iron, vitamin A and other micronutrients intake of urban and rural residents is the lack of widespread problems. The prevalence rate of hypertension increased by a relatively big margin. Currently adults suffering from hypertension the 1.6 million; diabetes prevalence rate increase. My adult diabetes prevalence rate of 2.6%, the high prevalence

of dyslipidemia, the middle-aged and elderly people similar to the prevalence rate; Prevalence of overweight and obesity were clear upward trend. "

Dietary unreasonable structure, toxic accumulation has become an important factor leading to the disease. Dietary regulation structure, it should also pay attention to detoxification, Hao Li ion purification to SPA for applications is a new, deep-level detoxification idea, as a cell "shower" as in the field of bio-energy role, the original group of macromolecules water into small molecules of water, and the dissolution of infiltration permeability of the rise, precipitation toxin into cells, dissolving fat, fat parcels will release the toxin. And the blood circulation, the feet will be brought to a toxin capillaries, pore excreted through to detoxification effect.

Promoting recycling detoxification visible - Yu Ruiyao: 301 People' s Liberation Army General Hospital skin beauty director, Professor. "Toxins

into the blood and damage blood circulation, causing qi running obstacle to light a viral fatigue, shortness of breath, and so on, leading to severe vascular sclerosis, hypertension, hyperviscosity, hypercholesterolemia, coronary heart disease, cerebral thrombosis and other cardiovascular and cerebrovascular diseases. Toxin be absorbed through skin , in acne, flat wart, freckles, chloasma, psoriasis, eczema and other skin diseases, and leans features, skin pigmentation or no flexibility dry skin and premature aging. toxin of the digestive system, there will be bad breath, bloating, loss of appetite, gastritis, gastric ulcer , cholecystitis, acute and chronic hepatitis, constipation, defecation and effort, mesenchymal stem node or not, the stool. "

SPA through Hao Li ion purification instrument to emit toxins in the water will have color changes, different colors represent different provenance toxins, detox more intuitive, but also the effect of detoxification through detoxification before and after blood tests, urine tests to determine contrast, detoxification, RBC was fat coverage, missing to negative charge, so that together increased blood viscosity; after detoxification, blood viscosity decreased erythrocyte also had dispersed.

Targeting root of anything - Tian Qian Jing :

Tokyo - should be the rationale of the University of doctors, health physician consultant in Japan "Detoxifying the most

effective way to control invasive toxins while removing toxins from the source, which is to reduce the burden in the most simple key targeted approach. This is because even excretion, diet, detoxification past, we believe that the main method, in fact are a temporary solution, not from

root removal of toxins so there will be more toxic the platoon, the row of the vicious circle of poison. "

Hao Li ions to SPA for its

purification from the root - detoxification cells, regardless of toxins accumulated in the body in which parts can be effectively cleared of anything. In addition, it is only through the water equipment have negative electric field, enhance membrane transporter, and no chemical effect, so we would not have any side effects.

Detoxification is a long-term project - Leon Klinghoffer Laiciman: American medicine, the future of Jurists "The

study revealed that even a life of normal, healthy person, in an average of up to 91 may still be residues of potentially toxic substances."

The toxin is not taken within a week in detox diet can be eliminated. Hao Li ion to purify SPA instrument can be accumulated in the cells from the toxin, in the initial detoxification may be tired flu, it is because after the removal of toxins, metabolic brisk, and the rehabilitation needs of vitamins and minerals consumed reasons. Users can detoxification process, through additional vitamins and minerals to adjust. Treatment usually lasting 14. After detoxification water colors will be smeared out, shallowing, tired after the initial use of flu disappeared, physical conditions have also been improved.

General

Clauses deficiency is not unreasonable - WubaiPing: Chinese Medicine Research Institute expert committee of experts, the World Health Organization Collaborating Center for Traditional Medicine researcher at the Institute of Chinese Medicine of the National Advisory "Entirely

avoid toxins into the body is impossible, the key is the body' s detoxification and antioxidant capacity is normal. Regular attack difficult to cure headaches, chronic fatigue, indigestion or long-term muscle soreness and so is the toxins in the body may cause trouble. Often tinnitus, memory deterioration, unknown because arthritis often drowsiness, overweight, resist bacteria or virus or drop suddenly had autoimmune disease, there may be some body of accumulated toxins are not even ruled out due. "

The body of toxins from the key lies in

"hand" in vivo biological channels maintain normal physiological functions so as to play a good role in detoxification. "General Clauses not disease, illness, they do not", Hao Li ion purification to SPA for conditioning the body through various channels function to detoxification patency, the Yin Yang Mi, qi reconcile, Five Viscera conditioning functions are normal. So resolve, and into intimate alien, in a variety of toxins, thereby avoiding many diseases.
