## ★ ABOUT THE UPLAND ACADEMY ★

The Task Force Garrison Upland Academy introduces veterans, active duty service members, and new hunters to the traditions, ethics, and skills of upland bird hunting in a small, professional learning environment.

Each academy is intentionally limited to **12 students**. Small class sizes allow every participant to receive individual coaching while building meaningful relationships with fellow veterans and instructors.

### TRAINING FOCUSES ON:

- Firearms safety
- Hunter ethics & conservation
- Bird biology & habitat
- Shotgun fundamentals
- Sporting clays instruction
- Field movement & dog work
- Upland hunting techniques
- Public land education
- Wildlife stewardship

## ★ WHY IT MATTERS

Many veterans miss the camaraderie and purpose that military service provided.

The outdoors offers a healthy avenue to reconnect, build friendships, and continue serving something larger than ourselves through conservation, mentorship, and education.

The Upland Academy is one of several outreach initiatives operated by Task Force Garrison that encourage continued service after the uniform comes off.

It also serves as an introduction to our broader mission, including the **Bright Light Continuum**, an initiative dedicated to honoring America's unresolved POW/MIA legacy and supporting future historical research, education, and awareness efforts.

Every sponsorship helps expand opportunities for veterans while strengthening programs that preserve military history and service.

## OUR COMMITMENT

Task Force Garrison is committed to operating professional, safe, and meaningful events. Our instructors emphasize:

## ★ CLASS SIZE LIMITED TO 12 HUNTERS ★
