Introducing **MEGAN CARTER X WALLPOPS**

Feel-Good Florals for a Joyful Space

WallPops is proud to collaborate with talented artists worldwide to bring unique, creative prints to peel and stick wallpaper, and Megan Carter's bold botanical collection is no exception!

Megan Carter x WallPops infuses home décor with the dynamic energy of her surface design work, featuring vintage charm and vibrant colors. This collaboration marks her first foray into wallpaper design, realizing a lifelong dream of creating nostalgic yet innovative floral patterns.

"My childhood dream was to be a surface pattern designer. I would draw little room scenes with patterned sofas, curtains, and most importantly, wallpaper! This collection is so significant for me as it's my first breakthrough into launching a collection with an established wallpaper brand."

- Megan Carter
