

# Brian Cline Band

UNCOMPROMISING MUSIC WITH A FRESH APPROACH

## ABOUT

BCB's musicians are not hired guns or interchangeable parts- they are a professional band of established artisans that are passionate and have a sound of their own. They spice up their shows with audience interaction/participation, medleys, segue ways, and mashes so there is never a dull moment.

BCB's song list ranges 13 hours of the best music from the last 50 years and focuses on styles they do best: Pop, Modern/Classic Rock, Funk, R&B, Jazz, Swing, Rap, Motown, 80's, Folk, Adult Contemporary, and Singer/Songwriter.

BCB is modern, but they love the classics; paying homage with fresh interpretations or with dead-on precision; whichever approach works best.

BCB thrives on versatility: every audience is different, and they have the flexibility to meet virtually all stylistic, logistic, or budgetary requirements.

Any party regardless of size can benefit from BCB's services; be it solo, duo, or trio at a winery or a house party, or as a full band production with staging, light show, DJs for breaks for corporate parties up to 1000.

BCB plays approximately 100 dates a year ranging from concerts and nightclubs, to festivals, fairs, parties, weddings, and corporate events. With 20 years professional experience, they know how to get the party started.

BCB are not "just" a cover band, both in the way they approach covers and because they are also

established songwriters and performers of their own music with commercially released recordings, TV/Movie placements, publishing deals, and equipment endorsements to their acclaim.

To BCB making your event a success is a personal goal, not a paycheck.

## **BAND FORMATS**

Solo acoustic with vocals, perfect Singer/Songwriter vibe for many events or as part of an event's overall timeline. Brian adds looper technology to allow solos and some basic percussion as well.

Duo- adds guitar virtuoso Frank Acosta on lead guitar and harmonies.

Trio- Adds David Parker on Percussion/Drums and vocals in more listening type format with added ability for Brian to play bass to allow for a dance set. This also adds 3-part harmonies. Great option for mixed ambient events with some dancing or for tighter budgets.

4-piece- Adds Jason McGrath on bass. In addition to the ambient grooves, this format allows the band to do the full dance band experience and a bigger song selection.

Core 5-Piece Band- Brandy Kraemer joins as female lead vocalist. Now the band can play the full songlist and sing 4-part harmonies. Brian and Frank add keyboards for certain songs and can trigger samples needed to cover more of the 80s and current pop songs.

Full 6 Piece Band- For larger events with the need for that extra sound and performance flash, adds Michael “Alphonse” Meredith on percussion alongside David’s drumming.

BCB can also add a DJ to compliment the band for seamless and continuous entertainment/audience interaction while Band is not performing.

*While the band always brings all sound equipment needed. Depending on the event, they can include a full light system for band and dance area, as well as, additional sound for multiple locations and additional sound needs.*
