

Certificate of Compliance

Subject: Compliance with ASME B16.34 Standard for Valve Design and Manufacturing

Date: April 2, 2014

Statement of Compliance

This is to certify that Flutec Valves designs, manufactures, and tests its range of valves in accordance with the requirements set forth in the ASME B16.34 – Valves Flanged, Threaded, and Welding End standard.

ASME B16.34 encompasses criteria related to pressure-temperature ratings, dimensions, tolerances, materials, nondestructive examination requirements, testing, and marking for valves.

Flutec Valves ensures that its products meet or exceed these criteria, thereby guaranteeing high-quality and reliable valve solutions for various industrial applications.

Scope of Compliance

The compliance applies to the following product categories:

- High Pressure Ball Valves
- Low Pressure Ball Valves
- Needle Valves
- Non Return - Check Valves
- Flow Control Valves
- 3-4 Way Ball Valves
- Manifold Mounting Valves
- Flange Ball Valves
- Hydrogen Ball Valves
- Stainless Steel Ball Valves
- Lockable Ball Valves
- Motorized Actuated Valves
- Butterfly, Gate, and Globe Valves

FLUTEC VALVES
Manufacturers of High Pressure Hydraulic Valves

Quality Assurance

Flutec Valves maintains a rigorous quality management system to ensure that all products are manufactured to the highest standards. Each valve undergoes thorough testing and inspection to verify compliance with ASME B16.34 requirements.
