CHEMISTRY**
CONVENOR:
DR. ANANT R. KAPDI

The Department of Chemistry, Institute of Chemical Technology, Mumbai is proud to organize "Organic Chemistry Symposium on the advancement in Synthesis, Catalysis and Chemical Biology and Material Sciences" on 18th and 19th January 2027 at ICT Mumbai. We have brought together an array of talented and highly accomplished scientists from all over India and Germany who have been actively involved in carrying out high quality research. The theme of the conference also has been selected given the paradigm shift in the current area of research in India from the tradition synthesis to Catalysis, Material Sciences and Chemical Biology. The conference aims to be a confluence of scientists from diverse fields emanating knowledge to the wider audience.
