

# AutoRemind

Connecting Doctors & Patients

Easy-to-use  
Built-in  
Automated  
Best Practice Advice  
Amazing Price Value

**AutoRemind will help you engage with your patients and make your practice more efficient.**

Send a variety of messages & reminders (text, call or email), create new appointments, manage your online reputation and stay top of mind with your patients, plus so much more.

## Features:

Appointment Reminders

Short Notice

Surveys

Triggered Messages

Late Payment

## Unique Proposition:

### Reminders

Reduce no-shows and ensure you collect the revenue you've already scheduled.

Alert your patients on any given day's schedule of an office closure or immediate notice.

Maximize patient satisfaction by collecting valuable input through customized surveys.

Automate messages with follow up care and instructions after the patient has had their appointment.

Remind patients that they have a balance due or overdue payment.

Sales Messages

Missed Appointment

Reputation Management

Recalls

### Marketing

Inform and target your patients about a special offer by appointment type or how often they have visited.

Recover lost revenue by messaging your patients that have missed an appointment to reschedule another.

Protect your online reputation. Filter good and bad reviews posted to Google, Facebook and more.

Increase patient retention by setting up automated recall campaigns. Notify them of annual check-ups, exams, etc.

Birthdays Greetings

Seasonal Messages

Newsletter

2-way Texting  
(Coming Soon)

### Communication

Create personal or unique greetings to stay connected with your patients.

Let patients know you are thinking of them during any holiday.

Notify all or target groups of patients to keep them up to date with your practice.

Stay in dialogue and improve communication by texting your patients individually in real-time.

Save time

Reduce Cost

Increase Revenue
