

Rapid Response

Amino Acid Fertilizing Nutrient for Fruit Trees/Veggies/Flowers

High Nitrogen-All Natural-No Chemical-Vegan

Water Soluble

Works in as little as 48 hours

Directions: 1 tsp. equals 1 gallon. Mix 1 tsp. powder with 1 gallon water and apply at the base of each tree or plant. Use between 1 and 5 gallons per tree. Reapply every 7 days exactly. Make sure the liquid goes directly to the root zone and does not roll away from the root zone.

Ingredients: Kelp, all 16 Amino Acid Chains, Humic Acid, Fulvic Acid, Mycorrhizae, Trichoderma, 29 species Bacillus, Yucca Root
