Transfer of Ownership
(for animals already registered)

To Transfer an animal already registered with the ATSA you must be the owner of record.

You have several options when you sell a registered ATSA to a new owner.

1) You have the right to sell the animal WITHOUT the registration papers. In this case the animal is considered 'grade' and can never again produce registered offspring.

2) Mountain Niche registry is working to accept online transfers. Until that time please email the Registar as the owner of record to initiate the transfer.

NOTE- Owners have the option to sell animals without their Certificate of Registration being passed to the new owner, and in such cases the animal is then considered 'grade' and can not produce registered offspring.

Please feel free to contact us with any questions at info@americanteeswatersheep.com or registrar@atsa-registry.com
