

# How to make a submission about Peninsula Precinct

We have prepared this information to help people make submissions about the **Peninsula Precinct** development, proposed for Woogaroo Forest. If you have any questions, please reach out to us by emailing [info@savewoogarootforest.com.au](mailto:info@savewoogarootforest.com.au)

## Important information to note

The process being applied to assess the Peninsula Precinct development application is **different** to the standard process managed by the Federal Environment Department. *For this case, public commenting on this stage is being managed by the project proponent, Springfield City Group.* To view the proposed plans and impacts, download the documentation here (note, it's a very long document!): [www.saundershavill.com/peninsulaprecinctdevelopment](http://www.saundershavill.com/peninsulaprecinctdevelopment)

## Background

All submissions made **must relate to the aspects of the EPBC Act that are assessed**. Only Matters of National Environmental Significance (MNES) are of interest. In the case of Woogaroo Forest, this includes **KOALAS, Grey-Headed Flying Foxes, Swift Parrots (seen seasonally in the area), Regent Honeyeaters (seen seasonally in the area), Migrants such as Rufous Fantail, Black-faced Monarch, Spectacled Monarch, Rainbow Bee-eater and White-throated Needletail**.

If you know anything else that the EPBC might find to be of interest, then please make sure to include it.

Here is a page that [lists the flora and fauna](#) protected under the EPBC Act.
