

Printer Product Guide

Brother has been changing the way people work and play for over 100 years.

Whether you're printing back-to-back documents, scanning last minute contracts, or producing high quality photos, Brother has a solution for everyone.

Inkjet, laser, or LED – each device has been designed to make life a little easier. With a versatile range of features, functions, and connectivity options, we use innovation and technology to transform home and office environments and improve workflow.

Plus, all Brother printers come with a 4-year on-site warranty, and our leading service and support. Our 24/7 NZ-based helpdesk is just a call away any day of the year.

Like you, we care about the environment, and we are proud to be a carbon-neutral organisation across all areas of our operations – recognised by our Toitū net carbonzero certification.

For hassle-free recycling of used cartridges and old hardware, Brother's comprehensive e-waste programme has drop-off points nationwide, completely free of charge.

Browse our range of printers to find the right one for you.

Colour Laser A4 Printers

Easy to use, compact colour laser printing. Perfect for home offices.

Mid range, compact colour laser printing. Ideal for small to medium businesses.

Ideal for mid-volume business users requiring reliable, high-performance, colour printing.

Perfect for businesses requiring high volume colour printing on a network. Offering best-in-class speed, functionality and quality.

IT GOES

AND GOES

Inkjet A3 Multi-Function Printers

1
year of ink
in the box¹⁴

Ideal for home and business users, with fast print speeds and network connectivity, this multi-function device delivers a consistent user experience and professional quality colour documents every time.

A multi-function that is built to last, meeting the needs of demanding small offices and business workgroups. This device offers versatile, cost-effective and connected duplex print, scan and copy.

Perfect for the digitisation and printing needs of every small business, this device is suited to users printing high volumes, saving time and money over time with its high ink capacity and duplex print, scan, and copy capability.

Exclusive to Harvey Norman

Brother is committed to environmental, economic and social sustainability.

Good for business.
Good for the planet.

Our comprehensive recycling programme ensures you can access a variety of free and responsible pathways for recycling your empty consumables and old print hardware.

Operating since 2008 with the support of certified e-waste specialists, Recycling Group, Brother makes recycling simple and easy.

Recycling your old products helps to close the loop, giving new life to old materials. Together, we can support a greener tomorrow, one responsible choice at a time.

ISO CERTIFIED

9001

ISO 9001-certified Quality Management System.

14001

ISO 14001-certified Environmental Management System.

All Brother products are produced in ISO 14001-certified factories.¹⁵

Explore other products in our range

Desktop scanners for high volume scanning

With high-speeds and large capacity Automatic Document Feeders, these scanners are designed for anyone wanting to quickly and efficiently convert large volumes of printed documentation to digital records. Ideal for many different industries including education, government, healthcare, legal & finance, logistics, retail and office use.

TD label & receipt printers for mid-high volumes

Available as both up to 54mm (ideal for wristbands) and 104mm width varieties, the professional TD range is ideal to use in the healthcare, retail and manufacturing sectors. The 104mm width printers are available as both Thermal Direct and Thermal Transfer technology, and are well suited for shipping labels.

P-Touch labellers for home, office & electrical

Our P-Touch range is perfect for applications that require ultra-durable, laminated labels up to 36mm wide. With hand-held, desktop and bluetooth options available, there's something for everyone.

TJ high-volume industrial label printers

Our high capacity, heavy-duty industrial label printers are designed for maximum efficiency and productivity in demanding industrial environments and busy warehouses.

QL labellers for low-mid volume printing

Ideal for visitor badges, indoor signage, or address labels, our QL range prints thermal direct labels up to 4" (105.4mm) wide in both die-cut and continuous length roll formats.

RJ Rugged Jet portable printers

Lightweight, compact and extremely rugged, our RJ range prints receipts, quotes, invoices and labels up to 4" wide with ease. With IP54 certification, the toughest tests against dust and water, you are assured of continued reliability whatever the conditions.

PJ Pocket Jet portable A4 printers

Compact and lightweight, these mobile printers fit easily into your briefcase or computer bag, and are quickly mounted in any vehicle or small work area. With thermal direct technology, they are ideal for field workers, public safety officials, healthcare professionals and those working in transport.

Sewing, embroidery and craft machines

With models to cover absolute beginners through to advanced users who want to add that special touch to their projects, our sewing, embroidery and craft-cutting range has something for everyone.

DTG/DTF garment printers

Create high-quality printed garments with minimal training or experience. Direct to-garment printing uses inkjet printing technology to print directly onto shirts, shoes, denim and more. Ideal for those wanting to create a print-on-demand business.
