

PEAQ SOLUTIONS

SUPPORT FOR ALL YOUR AUDIT NEEDS ON SITE OR AT SUPPLIERS

Audits to accelerate processes to new heights in operation quality and efficiency – Reduce your costs

We are offering an audit service that will address your practical requirements of your business and also meet your Quality system standards compliance. Whether it is a gap in your program that needs support or you require a review of your program to optimise. We can deliver an audit program that will produce improvements and change where required to optimise factory capability &/ or addressing product or quality issues. PEAQ can also train out and coach your own internal auditors. We also offer expertise to review supplies and there materials pinpoint issues and device and follow up audit schedules to reduce issues or improve compliance to your business requirements and reduce costs.
