

# PEAQ SOLUTIONS

## SUPPORT FOR ALL INDEPENDENT AUDIT REQUIREMENTS INTERNAL OR EXTERNAL SUPPLY CHAIN

**Audits to accelerate processes to new heights in operation quality and efficiency – Reducing costs**  
We are offering an audit service that will address your practical requirements of your business and also meet your Quality system standards compliance. Whether it is a gap in your program that needs support or you require a review of your program to optimise. We can deliver an audit program that will produce improvements and changes where required to optimise processes. We also offer expertise to review supplies and their materials pinpoint issues and ensure they meet standards. If required we can full service audit; set up audit schedules, complete audits, review actions and close outs to reduce issues or improve compliance to your business requirements. Often helping to deliver savings in operating costs.

**Our Audit services include:  
completing existing requirements of program or Internal program design and implementing**

**Compliance to Food Safety, Quality Policy and certification standards - customer expectations**

**Suppliers processes - ensure suitable and optimised**

**Process gap / issue analysis - operation efficiency, quality issues**

**Good Manufacturing Practices - minimise defects & increase quality of product**
