

# PEAQ SOLUTIONS

## SUPPORT FOR ALL QUALITY MANAGEMENT SYSTEM REQUIREMENTS

**Take your Quality Processes to new heights in operation quality and efficiency.**

We are offering a health check of your quality systems and will identify any improvements that will be beneficial to quality compliance and/ or efficiency. Where appropriate and practical to your business we will advise and assist in implementing changes. Whether it is a gap in your processes that needs support or you require help to close open actions in your program to meet business/compliance requirements. We also offer expertise if required for full service Quality system support; Manage key processes and review on a regular basis including; Quality KPI's, audit schedules, complete audits, review actions and close outs to reduce issues or improve compliance to your business requirements. Independent quality support can often help to deliver savings in operating costs and significant impact on customer satisfaction.
