	Basic Admissions	Total Admissions
<u>College Search</u> Which schools fit you best? What should you study? Where will you thrive and succeed? This multi-step collaborative project will deliver a tailored list of school recommendations with a trove of info on each, plus guidance to hone the list and build a résumé of experience colleges will notice. The Difference: Basic Admissions includes three 1-on-1 sessions plus a small group visit. Total Admissions includes monthly meetings & virtual workshops throughout junior year to continue honing your list.		
<u>Admission Essays</u> Great college essays can make the difference between being accepted or declined. Learn to write competitive first-person essays to outshine other applicants for those limited seats at top schools in weekly sessions to draft, hone, and perfect the winning essays you need. The Difference: Basic Admissions includes the Total Essays program, which provides help with up to 6 essays. Total Admissions includes help until everything is finished.		
<u>Application Filing</u> The application is your first impression, and you want it to be perfect. It's a lot more than just answering a few quick questions. We can tackle these daunting forms with you and make sure everything is submitted by the right deadline to maximize your admission opportunity. The Difference: Basic Admissions includes help with up to 6 college applications. Total Admissions includes support with up to 12 college applications & until everything is finished.		
<u>Interview & College Fairs Prep</u> An interview is your chance to become more than just a number and gain an edge over the competition. You'll need to learn how to pitch yourself and not just give the best answers but ask the best questions of your own. We'll support and polish these skills to help you shine in your college admissions and during college fairs.		
<u>Financial Aid</u> Learn to optimize the FAFSA and get help filling out first-year federal, state, and school-specific financial forms for both need- and merit-based aid. We'll complete the FAFSA, CSS Profile (if needed), plus anything extra that any individual school requires. The Difference*: Both programs include the virtual Financial Aid 101 Workshop. Total Admissions also provides 1-1 support with Financial Aid Expert, Ms. Karen Miller and continued support through the negotiating process.		
<u>Scholarship Support</u> Amid hundreds of criteria, we know how to hone in on the right scholarships for you. We'll assemble your list and provide guidance to maximize your chances, from writing new essays to repurposing existing ones, all the way to strategizing video submissions as needed. *Includes Scholarship 101 Workshop & Scholarship Spreadsheet.		
<u>Visit Planning</u> Visiting a school is a critical step in deciding to apply or commit. We'll help plan your visits and coordinate your itinerary to make the most of each trip, then debrief after to discuss what you liked and what you didn't so we can continue honing your list of colleges.		
<u>Total Guidance</u> A guiding hand every step of the way includes selecting upcoming high school classes, building a stellar résumé of stand-out activities, and being there when you need us for guidance, coaching, support, and the information and perspective that provide peace of mind for your college admissions.
