**Congratulations Maher Ali,**

Your application has been approved to become an Alison Self-Publisher, now let's get you to complete the next stage of the application process.

**What's next? Complete two training courses within the next two weeks:**

We have created two short online training courses to help you understand the Alison publishing process. We recommend you start with the e-learning course and then progress to the publishing tool training, second, as this is about learning how to construct your course for publishing.

## 1. Introduction to E-Learning Theory & Practice

This is the first training course that you need to complete. This course explains how to utilise e-learning theories and methodologies to create effective e-learning courses.

Begin Training

## 2. Alison Publisher Tool Training Course

After you have completed the first course, you need to learn how to use our Publishing Tool through this course. When you are completing this course, you can access the Tool itself to test what you're learning. **You can access our Publishing Tool [here](#), and use the same login details as your Alison account.**

Begin Training

The courses are free so you can start at any time that suits you.

We recommend you keep going as you want to reach the creative process of producing your own courses which capture your knowledge and experience to benefit learners who are interested in your subject matter.

When you have successfully completed these two training courses you will be a Level 1 Qualified Alison Publisher. You will gain Level 2 status when you publish your first course on the Alison platform. Level 3 is achieved when you have published four or more courses on Alison.

**Keep going, Maher Ali!**
