Dear Maher,

We've received your enrollment request and payment submission.

You have requested to enroll in the following class(es):

DTSA 5301 Data Science as a Field (1 credit)

What Happens Next

You will receive an email when we finish processing your enrollment (typically within 24 hours) with instructions to create your CU Boulder IdentiKey and email address.

Then, to get started in Coursera, you'll need to:

1. **Activate your IdentiKey.** Your IdentiKey is your CU login name and a unique password set by you. This account allows you to access your courses and other online resources, including your colorado.edu email account.

Look for an email from the Office of Information Technology (OIT) with instructions to activate your IdentiKey. If you don't see this message in your personal email inbox within 24 hours, check your spam or bulk email folders. If you still don't see it, [contact MS-DS on Coursera support](#).

2. **Activate your CU Boulder email account.** See how to [activate your colorado.edu email account](#).

3. **Link your CU Boulder and Coursera accounts.** Check your new colorado.edu email account for instructions from Coursera to [link your accounts](#) and get started.

Before you're able to access for-credit course content, you'll also need to complete a short onboarding course. See the **Getting Started steps on the Current Students** page for more details.

Your [colorado.edu](#) email will be used for important University of Colorado Boulder communications so be sure to check it often.

Need Help?

[Contact MS-DS on Coursera support](#) with any questions.

Office of the Registrar | University of Colorado Boulder
