Graduate School

Dear Maher,

My name is Emily Musumecci and I am the graduate advisor for the Master of Science in Data Science at CU Boulder. I'm excited to personally welcome you to the program!

As your academic advisor, I'm here to help you reach your educational and career goals. Throughout your time in the MS-DS program, I will be able to assist you with course selection, personalized academic planning, goal setting, and connecting you with general campus resources.

A little about me... I am from Colorado and like to enjoy our mountains and sunshine! I have a cat named Lola, and in my free time, I enjoy graphic design, racquetball, watching the latest television hit, and spending time with friends and family. I am working on my Master of Arts in Higher Education in order to serve students to the best of my ability. I look forward to getting to know you! 😊

If you would like to get more detailed advising, please schedule an individual advising appointment.

Virtual Advising Appointments

You can also meet with me individually in virtual advising appointments through Zoom. In these 30-minute meetings, I can help with course selection, academic planning, goal setting, and connecting with general campus resources.

Book a one-on-one Zoom advising appointment with me on [Calendly](#). Appointments are available now through the month of May and additional advising sessions will be scheduled for upcoming months soon.

Book an Advising Appointment

Prepare for your appointment: In order to make the best use of your appointment time, I encourage you to come prepared, including:

- Reviewing the [learner journey options](#) for course planning
- Preparing a list of questions you would like to ask

I look forward to connecting with you soon! Please reach out to me at msds-support@colorado.edu with any questions or concerns.

Best,

Emily Musumecci
