

AG LAND SALES DISCLOSURE STATEMENT

All information contained herein or subsequently provided by Broker has been procured directly from the seller or other third parties and has not been verified by Broker. Though believed to be reliable, it is not guaranteed by seller, broker or their agents. Before entering into any contract to purchase all or any portion of the subject property, prospective purchasers are advised, as a matter of due diligence, to investigate and verify the accuracy of all such information, as well as the property's suitability for prospective purchasers intended purpose.

Sustainable Ground Water Management Act: California has enacted groundwater management legislation in the form of the Sustainable Groundwater Management Act ("SGMA"). All California groundwater basins and sub-basins are affected by SGMA. Each basin and sub-basin will be managed by one or more local Groundwater Management Agencies ("GMA"). Each GMA is required to adopt a Groundwater Management Plan ("GMP") which are intended to address and rectify groundwater over-drafting. Buyer is advised that the Property may be located in one or more groundwater basin or sub-basin that are subject to one or more GMPs. As a result and depending on the terms and provisions of the GMP, extraction of groundwater may be severely curtailed, restricted, measured or prohibited. In addition, costs and fees may be imposed on the extraction of groundwater if it is permitted. These rules and charges may be applicable regardless of the Property's history of groundwater production. The Buyer is strongly encouraged to investigate the applicability of SGMA to the Property by consulting the State Water Resources Board and all applicable GMAs to determine if there is a GMP in effect or planned that will affect the Property and if so, what are its terms and provisions and impact on the Buyer's intended use for the Property. Broker has not made, does not make and hereby disclaims any and all representations or warranties concerning the Property's location in any groundwater basin or sub-basin, whether it is affected by SGMA or one or more GMPs or the existence, accessibility, quantity, quality or cost of any groundwater relating to the Property.
