

KAPTION AUDIO

**2017
CAR AUDIO
CATALOG**

IN 1987

Kaption's design team embarked on a journey to engineer and create loudspeakers that would become synonymous with exceptional sonic performance. Our hard work paid off thanks to our signature full-range speaker enclosure that utilized smaller speakers than most manufacturers at the time.

2 DECADES LATER

Our commitment and enthusiasm is the same and arguably stronger than ever as we continue to incorporate the newest technology and rigorous testing in our design and manufacturing process to ensure our products continue to perform at the highest level.

HANDLE POWER WITH EASE

Kaption's co-axials are manufactured with high quality materials and with the highest standards.

The result: components designed to play all types of music with precision and power. Handle power with ease so you can be confident in turning it up without hearing any distortion.

6 SRX SERIES CO-AXIAL WITH 12 dB AUDIOPHILE CROSSOVER

6" 2-Way co-axial Speaker
Shallow depth designed basket
12 dB audiophile crossover
15° Directed aluminum domed tweeter

570-SRX600

5X7 SRX SERIES CO-AXIAL WITH 12 dB AUDIOPHILE CROSSOVER

150 Watts RMS Power / 180 Watts Peak Power

12 dB audiophile crossover

Polypropylene/Fibre cone, Neodymium Magnet,
Angled 20mm aluminum dome tweeter

570-SRX572

**6.5" COMPONENT SYSTEM
SPEAKERS WITH 12 dB
2-WAY CROSSOVER**

- 2x 6.5" Woofers
- 2x 1" Tweeters
- 2x External Crossovers
- 2x 6.5" grills for woofers
- 2x Angle mounts for tweeters

570-SRXC652

- RMS power 150 watts
- Peak power 250 watts
- 87 dB efficiency
- Mineral filled PP cone
- 1" Soft dome tweeter with flush/angle mounts
- 12 dB adjustable 2 way crossover
- Aluminum phase plug

*Great buy for anyone looking for
an upgrade*

SQL SERIES: BEST SOUND COOL DESIGN

6.5" CO-AXIAL SPEAKERS WITH EXTERNAL CROSSOVER

120 Watts RMS power

Butyl Rubber Surround with Fibre Reinforced Cone

18 dB External Crossover with tweeter adjustment

Sold as a pair

570-SQL622X

6x9" CO-AXIAL SPEAKERS WITH EXTERNAL CROSSOVER

140 Watts RMS Power

Butyl Rubber Surround with Fibre Reinforced cone

18 dB External Crossover with tweeter adjustment

Sold as a pair

570-SQL692X

The new SQL Series' is largely responsible for the smooth mid range, exceptionally high frequencies and deep bass that you'll experience. These co-axials are the smart solution if you're searching for the definition and clarity of an audiophile component system but in co-axial form.

Limited edition wooden gift box

SMART INSIDE & OUT

At Kaption Audio we believe that great sound doesn't mean you have to skimp on style. Our amps were designed by the Kaption team to be smart, inside and out, using the latest in design software and 3D printing technology.

INSIDE

Under the hood of each AZR or DZR is the technology to detect fluctuation in voltage levels, audio signal and temperature with the ability to shut itself off to prevent overheating.

600W MONO BLOCK AMPLIFIER

Class D Design
2 Ohm Stable
High Level-in Adapter
Wired Bass Remote

570-DZR600X1

The compact hardware design and double sided PCB board means the AZRs and DZR pack big power with a small footprint.

OUTSIDE

The sleek matte finished exterior of each AZR and DZR features the iconic Kaption badge logo that lights up whenever the amp is in use. The all-black chassis, made from heavy-gauge aluminum with its chiseled heat sink shape effectively merges the line between design and function.

UPGRADE YOUR SOUND

2-CHANNEL LINE CONVERTER

Upgrade your sound using your vehicle's factory source unit. This unit can convert two groups of high level audio signal inputs from a source unit to low level signal output for amplifiers. Features Auto-on remote output for all amplifier. Converter will turn off after 70 seconds of no signal input.

570-HTL7

HIGH LEVEL-IN ADAPTER FOR DZR & AZR AMPLIFIERS

570-DZRADAPTER

MINI ANL FUSE & HOLDER

The ANL type is a non-time-delay, slower blow fuse. 80 Amp rating, Nickel Plated contacts and 4/8 gauge input/output

570-MANL4

ANL FUSE & HOLDER

Replaceable ANL fuse. Solid brass construction power connections. 125 Amp rating, Nickel Plated terminals. Accepts 0/4 gauge wire

570-ANL104

POWER DISTRIBUTION T-BLOCK

1 input / 2 outputs. Solid brass construction power connections. Nickel plated. Accepts 0/4 gauge wire.

570-DB1024

200 AMP CIRCUIT BREAKER

Reset switch. Solid brass terminals with nickel plating. Accepts 0/4 gauge wire.

Kaption Audio products have a one-year limited warranty. This warranty covers the original purchaser of a Kaption Audio Speaker, purchased from an authorized Kaption Audio Dealer.

In order to receive service, proof of purchase is required stating the customer's name, dealer name, product purchased and date of purchase.

Products found to be defective during the warranty period will be repaired with a product deemed to be equivalent at Kaption Audio's discretion.

What is not covered

1. Any product not purchased from an authorized Kaption Audio dealer
2. Any expense related to the removal, re-installation or shipment of any Kaption Audio products
3. Any Kaption Audio product that has been defaced or altered
4. Subsequent damage to other components
5. Damaged caused by accident, abuse, improper operation, water and theft
6. Burnt voice coils due to amplifier clipping or distortion
7. Repeated returns with the same damage may be considered abuse

How to obtain service

To obtain service on a Kaption Audio product, please return product along with original receipt to an authorized Kaption Audio dealer or call 1-866-KAPTION (527-8466)
