

Your Love (J. Sokel A. Landry Co-Arrangement J. Kruger)

Ancient rhythm surrounds me
Feel it deep deep in my bones
Taking over my motor
Turning the key to my soul my soul my soul

You know it's all inside of your mind
I need to feel something real
Come along come along this is right where we belong
Where we belong

All I ever really want is
Your love baby I promise
Tonight in the moment
It's right and nothing nothing is wrong
Nothing is wrong nothing is wrong

Birds outside my window
Singing them sweet sweet songs
A language everybody knows
And when they call I got to respond, yea

But I get stuck inside of my mind, sometimes
I need to feel something real
Come along come along this is right where belong
Where we belong girl

All I ever really want is
Your love baby I promise
Tonight in the moment
It's right and nothing nothing is wrong
Nothing is wrong nothing is wrong

No One Else (J. Sokel Co-Arrangement J. Kruger)

If I was a boat I would keep us afloat
Sail us in the warm weather never the cold
You on the bow and I'll be the stern
Tell me which way which way should we turn
Which way should we turn
Which way should we turn

If I was a farmer seeds I would sew
Yellow blue and violet roses I'd grow
Basil and thyme and oregano
These are the things I know I can grow

But Oh sometimes well the weather shifts on a dime
Oh my my without pain now there's no pride
Well everybody knows the time ain't meant to be spent alone
And everybody sees I don't want no one else beside me
I don't want no one else beside me

If I was your favorite seat in the room

I would sit there waiting patient for you
When you come home my comfort is true
My cushions are clean I'm pushing for you
I'm pushing for you
I'm pushing for you

But oh sometimes well the waiting gets so hard
Oh my god if it's a play I'll play this part
And everybody knows the time ain't meant to be spent alone
And everybody sees I don't want no one else beside me
I don't want no one else beside me
I don't want no one else beside me
No one else beside me

Weather the Storm (J. Sokel)

Whenever the rain is falling
Whenever the sun goes down
When options are next to nothing
and caution is all around

Relief is the roof we're under
Sturdy and warm
Whether it's lightning whether it's thunder
We can weather the storm

Well leaving is never easy
Time isn't always kind
People can be so callous
And love can be hard to find

Relief is the train we're boarding
It's ancient and worn
We got to claim this ticket and board
Just as sure as you're born
Yeah

Tears go by and the tears we'll cry
Yeah we'll cry, honey such is life

Big bank or pockets tight
We get by, by and by

Any time that you're feeling bad
Understand, honey I'm your man your man
Whoa your man
Honey I'm your man, whoa your man
Man without any plans

Relief is the roof we're under
It's sturdy and warm
Whether it's lightning or whether it's thunder
Even a hurricane
We can whether the storm

Mercy (J.Sokel Co-Arrangement J. Kruger)

Turn around this wreck you've found
Baby you need some relief
Caught up in sorrow and grief

Where your house ain't a home
And your phone's stuck on roam
Well your all choked up but you want to talk
Yet you can't find the words to say
Thank god for mercy baby
Thank god for mercy baby
Say what you wanna say
Save the day

You got to maintain there's hope in change
Each coming day that you see
Rewrite reality

Where your mind is your own
And your thoughts ain't on loan
You know you're magic when you have it
but you're hell just as soon as it's gone
Say what you want to say

Is there something you've been going without
Maybe something you need
go on and darlin just let it on out for you may get some release
Thank god for mercy baby
Oh it's getting late
Say what you wanna say
Save the day

Is there something you've been going without
Maybe something you need
Go on and darlin just let it on out for you may get that release
Thank god for mercy baby
Oh it's getting late
Say what you wanna say
Save the day now

Down For You (J.Sokel)

Oceans and mountains rivers and valleys
Anywhere you go I'll go too

There ain't no way I'm leaving without you babe
Anywhere you go I'll go too
Anywhere you go I'll go too

Sunny or stormy weary or windy
Anywhere you stay I'll stay too
There ain't no way I'm leaving without you babe
Anywhere you stay I'll stay too
Anywhere you stay I'll stay too

Cause you're down for me and
I'm for you
We're simple and
We're so true

City or suburb country or corner
Anywhere you ride I'll ride too
There ain't no way I'm riding without you babe
Anywhere you ride I'm riding too
Anywhere you ride I'll ride too

Cause you're down for me and
I'm for you
We're simple and
We're so true

If we ever lose our way
We'll get it back again
If the cards don't seem to land
You know you got that friend

Down for me and
I'm for you
We're simple and
We're so true

Oceans and mountains rivers and valleys
Anywhere you go I'll go too
There ain't no way I'm leaving without you babe
Anywhere you go I'll go too
Anywhere you go I'll go too
Anywhere you go I'll go to

SIDE TWO

We Will Be Alright (J.Sokel)

It's hard to tell that the world is turning
It's hard to chill when it's so concerning
Through the air well the smoke is churning
I am an open mind that yearns for
A place in the yard where the flowers bloom
High in the castle in the corner room
Sing with the now we will be alright

Sing with me now we will be alright
I plan on living up on life well
I plan on giving up on strife well
It ain't no buddy it ain't no buddy of mine

Well I wanna go downtown
Where we used to hang out
Play what I feel while they dance and they shout
Fill your cups I hope they're full enough
Enough

It's hard to tell that the world is turning
It's hard to cook when the kitchen's burning
Through the air well the smoke is churning
I am an open mind that yearns for
A place in the yard where the flowers bloom
High in the castle in the corner room (well)
Sing with me now we will be alright
Sing with me now we will be alright
I plan on living up on this life
I plan on giving up on strife
Hell it ain't no buddy it ain't no buddy of mine

Well come on and take it downtown where we used hang out
Play what I feel while they figure this out
Fill your cups I hope that they're full enough
Well peace and love in the place that you're from
The culture you grasp and the kids that you have
You do your best it still don't feel like enough

When The Morning Comes (J.Sokel Co-Arrangement K. Jones)

Take all these things away
Ah my head it aches from high anxiety
Oh and my pain stuck me cold awake
Dreams I can't escape
They're weighing on my brain

Holding my breath for hand in the fight
Sing the new song to the crowd every night
Breath in my lungs shoes on my feet
High in the air glide down the street
When the morning comes
I will come running home to you
When the morning comes
I will come running home to you

Break all these chains that weigh
And all this shit that stays
And lay in it the grave
All my friends are going insane
We're passing through these days
At a rate I can't contain

Spinning these wheels
Locking them tight
Sing the new verse to myself every night
Breath in my lungs shoes on my feet
Safe on the ground pacing the street
When the morning comes
I will come running home to you
When the morning comes
I will come running home to you
Home to you
Home to you
Home to you
I'll come runnin'
You know I will

Oh My My (J. Sokel Co-Arrangement J.Kruger)

Oh my my I feel it coming down
The waves rush in then they roll on out
Mother moon turn look to father sun
Understand that we are truly one
Born out of love under the starlight up above
Every day everyone singin'
Ahh ahhh ahh
Oh my my I feel it coming down
The waves rush in then they turn back around
Hand in heart I'll hold my head up high
With big wide eyes into the endless sky
Born out of love under the starlight up above
Everyday everyone singin'
Ahh ahhh ahh

Carousel (J.Sokel)

Realize when your soul is on fire
Check your size cause your using up the world
Distant cries of a wind blew dreary
Blatant lies are the ones that you know

Ah yea when stars they fall in line
Ah yea I got nothing more than time
Tie me in just like a marrow to your bone
Every day I'm getting closer to my home
Every day I'm getting closer to my home

Problems, don't come around here no more
Problems, the heaviest rain knocking down my door

Ah yea when the stars they fall in line
Ah yea i got nothing more that time
Tie me in just like a marrow to your bone

Progress, spinnin' like a merry go round'
Progress, picking us up and taking us back home

Any way you roll live and let go
Heart with the soul and the beat and it goes
Any way you roll live and let go
Heart with the soul and the beat and it goes
Any way you roll live and let go
Heart with the soul and the beat
Any way you roll live and let go
Heart with the soul
